Varifocal Lens

The 3.2 ~ 10mm (3.1x) varifocal lens, created by Hanwha Techwin's own advanced technology, offers greater flexibility in the field of view. The motorized zoom option provides quick and easy megapixel focus using the simple focus feature.

Enhanced video analytics

The Wisenet Q series cameras are equipped with a wide range of Intelligent Video Analytics features, helping users detect different types of incidents and have full situational awareness of their facility.

Defocus Detection

Create an alarm if the focus is blurred.

Tampering Detection

Create an alarm if the camera lens is covered or an unauthorized movement changes the field of view.

Directional Detection

Create an alarm if an object is detected in the preset direction.

Motion Detection

Create an alarm if movement is detected in a designated area.

Virtual Line

Create an alarm if an object is detected passing through a virtual line.

Enter / Exit

Create an alarm if an object enters or exits a designated area.

Analog video output for easier installation

The Wisenet Q series cameras support analog video (CVBS) output for easier installation. During the installation, a monitor can be connected to the monitor port to adjust and configure the viewing angle and the focus.

Improve bandwidth by up to 99% using WiseStreamII

Using WiseStream II, Hanwha Techwin's own video compression technology, Wisenet Q series cameras reduce data by up to 99% compared to H.264 technology, when combined with H.265 compression. System costs, such as network infrastructure and data storage, are also greatly reduced without comprising image quality.

WiseStream II ON : 74kbps

WiseStream II OFF : 7260kbps
WiseStream II ON : 1817kbps

Hallway view for monitoring vertical shaped areas

In a vertical shaped environment, such as a store aisle, traditional horizontal shaped cameras waste bandwidth and storage on unnecessary edges. The Hallway view creates 3 : 4 and 9 : 16 ratio video which is vertically oriented and maximizes image quality in a narrow environment.
