The Vacu-Mixer delivers 100% mix at the touch of a button. It can fill a full arch tray in 10 seconds.

Cut time spent mixing and filling trays by 50-70%, while improving the overall quality of impression detail and results with every impression.

The Vacu-Mixer is the first cordless, portable, automatic VPS mixing machine. Its ergonomic design makes it easy for any size hand to operate with just one hand.

Cordless, rechargeable, and only two pounds with a full cartridge.

Fast, flawless auto-mix without voids - at the touch of a button.

- 1:1 Ratio Eliminates Mixing Errors
- Easy to use, fully automated
- Hand held or table top dispense
- 100% Mix eliminates voids

The Vacu-Mixer features a 120ml cartridge that extends use with lower cost and less waste.

The dynamic mixing tip ensures a perfect mix without voids or streaks.

Dynamic Mixing Tip

120 ML Cartridges
Regular or Fast Set

Two trays filled with impression material. Notice the streaks with the hand pump method.

Pairing the Vacu-Mixer with our #1-rated Vaccu·sil VPS Impression Material creates an unbeatable combination of convenience, speed, accuracy, and cost savings.
