

DOYLE VACUUM SYSTEMS

Quality. Performance. Reliability.

3 Chamber Super Vac

Front View

Side-Mount 3-Chamber SuperVac with optional large digital display, bill acceptor and electronic coin acceptor

Standard Features:

- Stainless steel construction
- Polyethylene domes (Blue/Green/Red/Yellow/White)
- **3-Chamber vacuum tank** with separate dirt intake and collection chambers
- **Two pleated cartridge filters provide 16 ft2 of filter surface area - with expanded-PTFE surface membrane, filters are 99.7% efficient at 0.3 microns**
- Large meter box, with internal frame for higher strength and security, will accommodate the packaging of various electronic options and/or allow future upgrades

Rear View

The upper door opens to allow access to the filter/intake chamber – the lower door opens to allow access to the removable five gallon dirt bucket

Standard Features Continued:

- Meter panel door attached with piano hinge on one side and two heavy-duty Medeco cam locks (and extra lock tab) to protect your money and high-end electronics
- 5-Gallon bucket for dirt compartment
- Low voltage (24-Volt) control circuit
- Mechanical coin acceptor and solid state timer
- Fuse protected

Motor Options:

- (2) Standard Motors 120 Volts / 16 Amps
- (2) High-Performance Motors 120 Volts / 24 Amps
- (2) High-Performance Motors 240 Volts / 13 Amps

Other Options:
