Rinse mouth with water. Give up to one tumbler (half pint) of milk or water. Obtain medical advice immediately.

#### 4.2 Excessive inhalation

Remove the individual to fresh air and keep at rest. Obtain medical advice immediately.

#### 4.3 Skin contact

Remove contaminated clothing. Wash skin with large volumes of water, (or soap and water). If irritation persists, or any sign of tissue damage is apparent, obtain medical advice immediately.

#### 4.4 Eye exposure

Irrigate copiously with water for at least 10 minutes. Obtain medical advice if any irritation or evidence of tissue damage persists.

## **5: Firefighting measures**

### **5.1 Extinguishing media**

CO<sub>2</sub>, alcohol – resistant foam, dry powder. Never use directly water.

### **5.2 Special hazards arising from the substance or mixture**

In case of fire, CO/CO<sub>2</sub> and smoke may be released.

### **5.3 Advice for firefighters**

In case of insufficient ventilation, wear suitable respiratory equipment.

## **6: Accidental release measures**

### **6.1 Personal precautions, protective equipment and emergency procedures**

Remove ignition sources. No smoking. Provide sufficient ventilation, control of dust. Wear suitable personal protective equipment, referred to under Section 8, to prevent any contamination of skin and eyes. Avoid inhalation of vapor.

### **6.2 Environmental precautions**

Recommended environmental precautions to be taken related to accidental spills and release of the substance or mixture, such as keeping away from drains, surface and ground water.

### **6.3 Methods and material for containment and cleaning up**

Gross spillages should be contained by the use of sand or inert powder, and disposal of this should be in accordance with Government Regulations. Any absorbent used for cleaning up spillage should be disposed promptly, preferably by incineration, as some cases of spontaneous combustion of rags soaked with similar materials have been reported.

### **6.4 Reference to other sections**

If appropriate Sections 8 and 13 shall be referred to.

## **7: Handling and storage**

### **7.1 Precautions for safe handling**

Avoid naked flames or other potential sources of ignition (eg. electrical equipment). Do not subject to unnecessarily high temperature during processing. Wear suitable personal protective equipment. Maintain adequate ventilation in working areas. Do not smoke, eat or drink when you use this product. Good personal washing routines should be followed.

### **7.2 Conditions for safe storage, including any incompatibilities**

It is good general practice to store in closed, preferably full, containers away from heat sources, and protected from extremes of temperature. Do not re – use the empty container.

### **7.3 Specific end use(s)**

Aromatic material: Use according to proper manufacturing practices and occupational hygiene.

## **8: Exposure controls/personal protection**

### **8.1 Exposure controls**

Do not subject to unnecessarily high temperature during processing. Maintain adequate ventilation in working areas.

### **8.2 Personal protection**

a) Respiratory protection: where ventilation may be inadequate, wear self – contained breathing apparatus. b) Hand protection: where hand protection is indicated, safety gloves are recommended. c) Eye protection: where eye protection is indicated, safety goggles are recommended. d) Skin protection: depending on working situation these should include wearing protective clothing, which will also limit the odor contamination of personal clothing. Good personal washing routines should be followed.
