Short Full Shell Walking Boot

SKU: BTS207

Instructions For Use

Step 1. In a seated position, place foot and leg inside foam liner and fasten it snugly.

Step 2. Add additional pads to supplement inner space as needed.

Step 3. Place liner and foot into walker boot.

Step 4. Fasten ankle, foot and calf strap in order. Tighten straps until snug and comfortable.

Step 5. To inflate, press air valve until comfort level is reached.

Step 6. To deflate, turn the valve stem until liner is deflated.

Care Instructions

- Hand Wash with a 50% Alcohol/Water Mixture
- Do **NOT** dry clean, iron, or bleach.
