X-DOCK MODULAR ECO-SYSTEM

What sets the ARMOR-X apart is its new X-DOCK modular design. It enables high level customization and endless functionality. The back of the case features a slotted rail system that allows you to attach and swap various modules and accessories to the case. These can include a card readers, extra power pack, thermal printer, hubs and more. The options are extensive, allowing you to add functionality that suits your needs

TRANSFORM AND CUSTOMIZE YOUR LENOVO TAB M11

Elevates the user experience and streamline your operations. The X-DOCK System allows you to build a customized setup for your Lenovo TAB M11. Whether you need a card reader, portable printer, HDMI or Lan connection, extra battery life or additional storage, you can select and attach the modules that best suit your workflow. Our X-DOCK rugged case equips your teams for ultimate functions and efficiency.

EXTREME PROTECTION & WORRY FREE

Our X-DOCK system starts with a rugged and durable protective case made by ARMOR-X. This case provides protection against drops, bumps, and scratches, ensuring the safety of your Lenovo Tab. We have a wide range of covers to fit your devices. Whether you're looking for a slim, sleek case for everyday use or a IP68 water, shock & dust protective case for your tough working environments, we have you covered. Our engineers craft the protective case in every single details to make sure your device is protected from the unexpected.

CARRYING & HANDS-FREE SOLUTIONS

In addition to our protective cases, ARMOR-X also offers a variety of carrying solutions to make it easier to transport and use your devices. The 360-degree adjustable hand offers a secure grip to the device and helps prevent drop.

The shoulder strap come with a quick-release feature, allowing you to easily detach your device when needed. They're useful for keeping your device within reach while on the go. The integrated kickstand is designed to provide convenient hands-free viewing of your device.
