

EN 50085-1:2005

EC Declaration of Conformity

Declares that the following product(s):

- Cable Trunking System (CTS); an assembly comprising a trunking length and or other system component to provide an enclosure for accommodation and laying in of insulated conductors and cables and possibly other electrical equipment
- The system are intended for mounting on walls and/or ceilings. They may be embedded, installed flush or semi-flush state, surface mounted or mounted away from the surface using fixing devices

Comply with the essential requirements of and other relevant provisions of the Low Voltage Directive (2014/35/EU), and the electrical equipment (safety) regulations 2016 when used for its intended purpose.

Harmonized Standard:

- EN 50085-1:2005+A1:2013 Cable Trunking Systems and Cable Ducting Systems for electrical installations - part 1 General requirements.
- EN 50085-2-1:2006+A1:2011 Cable Trunking Systems and Cable Ducting Systems for electrical installations – Part 2-1: Cable Trunking Systems and Cable Ducting Systems intended for mounting on wall and ceilings.
- Manufactured from steel complying with BS EN 10346.

The technical documentation relevant to the above product can be made for inspection on application to: Alan Harris, voestalpine Metsec.
