

Corrosionmonitor.com Coupon Digital Process

HOW IT WORKS

Purafil's uniquely digital corrosion coupon process is modernizing and simplifying reactivity monitoring. In 5 steps, you will have a corrosivity report delivered directly to your account in the [Online Coupon Portal](#). This infographic outlines the steps you need to take to successfully utilize this digital service. (Plus, any green links will direct you right where you need to go on the site — just click!)

STEP 1

Order your Corrosion Coupon online and ship it directly to you! Not sure which model is right for you? Take our [Product Selector Quiz](#) to find out.

STEP 1 ORDER ONLINE

 Email Alert: Your coupon has shipped!

STEP 2

When bought on our website, Coupon registration is done 100% online. After receiving your Corrosion Coupon in the mail, you **MUST** [register on our website](#) before using.

STEP 2 REGISTRATION

PRO TIP #1

We do NOT accept hand written registration. Please register online. Plus — this will unlock your access to the online portal where you get your results!

STEP 3

After registration, you can now place your coupon in the intended testing site for 30 days. Keep track of your removal date in the [Coupon Portal](#). (Your portal account is created at registration!)

STEP 3 INSTALLATION

STEP 4

Send your coupon back to the Purafil Lab in the plastic bag it came in for analysis by our team of corrosion experts. They will determine your corrosion levels based on a normalized 30-day reactivity rate.

STEP 4 LAB ANALYSIS

PRO TIP #3

Save the plastic bag the coupon comes in for easy shipment back to the Purafil Labs!

STEP 5

Receive your **FREE** Environmental Corrosivity Report In the [Coupon Portal](#) where you can view & print your results. All results are broken down and correspond with ISA Standards.

STEP 5 REVIEW RESULTS

 Email Alert: Your report is ready!

PRO TIP #2

It is important to place the coupon within 24hrs of receiving it so it is unaffected by outside factors (your results could be inaccurate if you wait too long!)

Purafil Labs Address:

Purafil – Chelsea Newton-Lab 2654
Weaver Way Doraville, Georgia 30340
