About BUTTERNUT ENTERPRISES

Nestled in the Blue Ridge Mountains, our family-owned and operated business is located in Blairsville, GA — home of beautiful Lake Nottely and Vogel State Park.

Our family has loved guns and hunting for generations. When we started our company five years ago, we were just a couple of enthusiastic gun lovers. But now, we're growing our business to reach and help more people enjoy the family-friendly sport of target shooting.

As proud Americans, we source everything in the United States — from the steel we use to the equipment in our shop that fabricates the targets. With the proper care, our high-quality targets last forever.
