

Fall/Winter Color Inspiration 2024

Your color inspiration cards are designed to inspire you to combine the trending colors in the stores with clothing that you already have. Each page, in this section, contains 9 color inspiration “cards”. You can print out the sheet for your color type and cut along the lines to create 9 cards. Use these as a guide to identify patterns, combine new items, shop and try something new.

The 4 colors on each card can be worn all at once. Try for at least 3 of the 4 colors. Each card has at least one neutral and these neutrals repeat across the cards, helping you create a cohesive wardrobe for the season.

All of the colors chosen for your color type sheet are designed to mix and match. So, even if 2 colors are not shown together on a card, you can still put them together for even more inspiration.

Create a mini color fan with the colors on your cards. Mix and match your cards for more ideas. Take your fan and cards shopping. Find items you already have and try them together.

The asterisks next to a color name mean that these are trending colors of the season and you will see variations of this color in stores. If a trending color aligns with a color in your color fan, you will see that color name at the bottom of the color swatch.

If you don't like a color or you have a lot of a color you'd rather use, replace similar colors. Pink for a red. Orange for a yellow. Turquoise for a blue. Purple for a red, pink or blue. Green for a yellow or blue. Neutral for a neutral. And vice versa.
