DIRECTORS' REVIEW REPORT For the Quarter Ended September 30, 2020

On behalf of the board of directors of the Company, we are pleased to present before you Condensed Interim Financial Statements of the Company for the quarter ended September 30, 2020.

Operational Results

During the quarter ended September 30, 2019, the Company remained on the track of progress and recorded net sales of Rs.152.380 million compared to Rs.99.492 million for the same quarter of last year with an increase of Rs.52.889 million (53.16%). Increase in sales was mainly due to restoration of post Coronavirus pandemic (Covid-19) scenario business activities in the country and relaxation by the Government in the condition for providing CNIC number for every sale from Rs.50,000/- to Rs.100,000/-. During the quarter under review, the Company earned a gross profit of Rs.22.899 and net profit of Rs. 7.967 million as compared to gross profit of Rs.14.312 million and net profit of Rs.4.230 million respectively for the same quarter of last year. This achievement is also attributed to operational excellence and management skills which led in improving efficiencies, best product mix management and effective cost control measures.

Future Outlook

The Government is very keen and has taken various remedial measures for strengthening the economy of the country in post Coronavirus pandemic (Covid-19) scenario. Earlier Government has given financial package to mitigate negative impacts of the pandemic whereas State Bank of Pakistan also reduced policy rates to support the business community and revival of the economy in the country. However, the major threat to business specially at retail level is ever rising inflation and dearness prevailing in the country which may severely affect the purchasing power of the consumers resulting affecting the sales targets of the foam and allied products. Though, foreign exchange rates remained stable, but on the other hand major risk for foam sector is uncontrollable raw material prices in international market as major raw materials are not manufactured in the country and imported from all over the world. However, the management of the Company is fully cognizant of the affairs and will overcome the situation through operational excellence and management skills, best marketing and production strategies. The Company is confident to meet the challenges ahead to achieve best possible performance results and remain focused on the needs of its trade partnering customers.

Appreciation

We would like to acknowledge and appreciate the devoted and sincere services of our workers, staff members of the management team. We are grateful to our bankers and other stakeholders. We also thank for continued co-operation extended by our customers and retailers who are the key element of our Company.
