## *Introducing Ethereal FT-212 Banana Terminals*

*Premier Performance and  
Legendary Build Quality*

### ***The Furutech Ethereal FT-211(G)/(R) Banana Terminals***

Furutech is known the world over for a huge variety of top-quality OEM parts and delivers consistently superior results by following Pure Transmission principles; examine every link in the power and signal path and ultimately optimize each and every element.

In highly-resolving audio systems EVERYTHING makes a difference. Low-mass, low-weight spade and banana speaker terminals have recently found favor with many audiophiles. Furutech's beautifully-finished, beautiful-sounding Ethereal Spade Terminals are the result of meticulous engineering and careful audition of various materials. The FT-211 features an  $\alpha$  (Alpha) pure-copper conductor yielding minimal impedance. The conductor is housed in an extremely nonresonant POM resin body with a shell crafted of nylon and fiberglass using Furutech's outstanding Piezo Ceramic damping material. The pin locks feature a new patent-pending mechanism for a secure, reliable grip.

It's difficult to find better...
