## NCF Booster Performance-enhancing Connector & Cable Holder

Multi-material hybrid construction: an original  
Furutech design

*For superior connector and cable damping*

### Multifunctional NCF Booster Performance-enhancing Connector & Cable Holder

Not only does the Furutech NCF Booster Connector and Cable Holder lift audio cables off the floor minimizing their points of contact with the floor, reducing electromagnetic interference, it also excels at providing NCF damping support for connectors and cables at points of connection. The NCF Booster Connector and Cable Holder allows for the optimum alignment between connectors and sockets and eliminates static – boosting performance by allowing a more pure and clear signal.

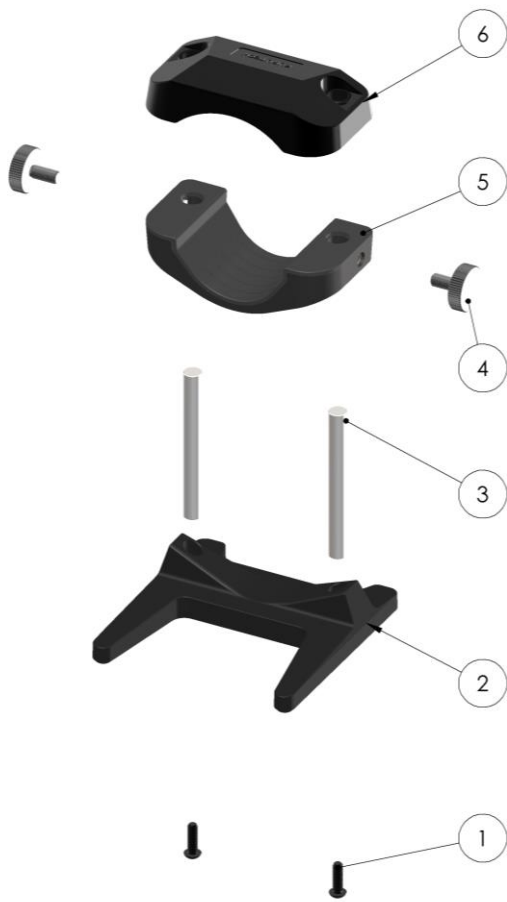

### NCF: Nano Crystal<sup>2</sup> Formula

Developed by Furutech, NCF features a special crystalline material that has two 'active' properties. First, it generates negative ions that eliminate static. Second, it converts thermal energy into far infrared. Furutech combines this remarkable material with nano-sized ceramic particles and carbon powder for their additional piezoelectric damping properties. The resulting Nano Crystal<sup>2</sup> Formula, exclusive to Furutech, is the ultimate electrical and mechanical damping material.

### NCF Booster features & construction

- Multi-material hybrid construction – a Furutech original design.
- Support unit: audio-grade ABS resin and NCF nylon resin to eliminate static charge.
- Top clamp unit: stainless steel block and audio-grade NCF nylon resin.
- Base unit: audio-grade ABS resin body with slip-proof, shock-absorbing plate with counterweight.
- Overall dimensions: 94 x 99.7 mm approx. Height: base level 80 mm / extended level 140 mm approx.
- Net weight: Base level 580 mm / extended level 630 mm approx.

## Parts & materials

	Parts	Materials
1	Shaft bar fixed screws (x2)	Coated black steel
2	Base unit	Audio-grade ABS resin body Coated black steel counterweight Silicone-injected black steel plate
3	Shaft bar	Nickel-plated brass
4	Support fixed screws (x2)	Nickel-plated brass
5	Support unit	Audio-grade ABS resin & audio-grade NCF nylon resin
6	Top clamp unit	Coated black stainless steel block Audio-grade NCF nylon resin
<b>Accessories</b>		
		Extension shaft bar (x2)
		H2.5 hex driver (x1)
		Silicone damping ring (x2)
