

Obbligato

premium film capacitors

In the audio world there aren't many low cost - high quality film caps. Some of the ones commonly available are a little edgy sounding, add sssh, and sing along with the music due to loose windings, voids or poor quality films etc.. Obbligato caps are made with extra tight winding, no voids and thick coated aluminum film imported from Germany. Lead outs are soldered copper, solid core for the dry types and for most of the oil types. Spec'd at 5% but on average much closer than that. Sound can be subjectively described as smooth and easy.

Consider these to be the equal to premium series film caps.

Obbligato Gold premium aluminum film caps (630VDC)

Value		Dimensions (D x L) mm
0,047uF	Non-magnetic case	15 x 18
0,1uF	Non-magnetic case	15 x 18
0,15uF	Non-magnetic case	15 x 25
0,22uF	Non-magnetic case	15 x 25
0,33uF	Non-magnetic case	15 x 30
0,47uF	Non-magnetic case	20 x 30
0,68uF	Non-magnetic case	20 x 35
1,0uF	Non-magnetic case	20 x 35
1,5uF	Non-magnetic case	20 x 40
2,2uF	Non-magnetic case	20 x 40
3,3uF	Non-magnetic case	25 x 50
4,7uF	Non-magnetic case	30 x 55
6,8uF	Non-magnetic case	30 x 60
10 uF	Non-magnetic case	30 x 75
15uF/ 250V	Non-magnetic case	30 x 60
22uF/ 250V	Non-magnetic case	35 x 75
33uF/ 250V	Non-magnetic case	40 x 80
47uF/ 250V	Non-magnetic case	45 x 80
