

# WIREWORLD®

## CABLE TECHNOLOGY

**WireWorld Radius Round HDMI Cable:** Wireworld Radius™ 48 high-performance HDMI cables utilize Wireworld's ultra-quiet COMPOSILEX 3 insulation in a precision triple-shielded design to provide improved sound and image quality. This 48Gbps HDMI cable is UHS certified by The HDMI Group, Llc., ensuring support of all HDMI2.1 capabilities, including 8K/10K, Dynamic HDR, VRR, HDCP2.3 and eARC (Enhanced Audio Return Channel). These cables deliver crystal clear definition and vibrant color. The greatest differences among HDMI cables are in sound quality and that is where Wireworld HDMI cables truly excel. The superior Uni-Path™ designs and leading brand internal components provide the ultimate in 8K imaging and lifelike sound. Every Wireworld HDMI cable exceeds the official HDMI specs supporting all the latest HDMI2.1 features.

### Radius™ 48 HDMI® Cable

*Innovative designs connecting passion with technology*

24K gold-plated contacts ensure reliable connections

Composilex® 3 insulation improves clarity & dynamics

OFC\* conductors for rewarding improvements in clarity

Triple-shielded design minimizes interference

\*Oxygen-Free Copper
