

# WIREWORLD®

## CABLE TECHNOLOGY

### Ultraviolet™ 8 Coaxial Digital Cable

*Innovative designs connecting passion with technology*

\*Oxygen-Free Copper \*\*U.S. Patent #8,569,627

→ Ultraviolet 8 digital audio cable provides a true upgrade in smoothness and three-dimensional imaging. These advanced features were developed through comparisons to virtually perfect direct connections, so the improvements they make are not subtle and the sonic value they provide is truly outstanding. Available in either RCA or BNC plug configurations.

→ The same advanced design as the Starlight 8 USB, built with less silver to save cost, Ultraviolet's surprising musicality proves that Wireworld's superior designs produce the best value and sound quality in USB audio cables. Exceeds official USB high speed specifications.
