

Product Specification Guide

Product Name:

COLOR ATELIER CLEAR WAX

PRODUCT DESCRIPTION: Color Atelier Clear Wax protects Tadelakt and plaster walls by increasing water and stain resistance. Made using the finest natural bee's wax. A versatile protective topcoat product gives the walls a silky smooth finish while providing wipe-ability.

Size: Quart | 32 oz.

- Ideal for all types of finishes that require final protection.
- Can be buffed to a sheen and glossy look, if desired.
- Dries clear, and gives a silky finish.
- No dilution required. Ready to use.
- It can be used on lime painted, and plastered walls, concrete, stucco, wood finishes and furniture as well.
- Wax can be applied periodically for Tadelakt wet area maintenance.

READ ALL INSTRUCTIONS THOROUGHLY BEFORE USE

APPLICATION: No dilution required. Ready to use. Use a steel spatula or trowel with the same method as for plaster or stucco. The product can also be applied in the same way as a conventional wax, using a sponge or cloth. Leave to dry for a few hours and then buff with a soft cloth.

NOTE: Allow the final coat of lime paint, plaster, or Tadelakt finish to dry at least 2 days before applying the sealer or wax on top.

SURFACE PREPARATION: All surfaces must be firm, dry, and cleaned free of dust, dirt.

COVERAGE: One Quart will cover approximately 100 to 150 square feet (per coat) depending on the surface, and application.

MAINTENANCE: Remove dust to clean surface. To renew protection, apply the product every two to three years

NOTE: Storage temperature: from 32 °F to 77 °F. The product must be applied to material with a temperature 50 °F and 86 °F.

DRYING TIME: A few hours dry time.

PACKAGING: Color Atelier Wax is available in Quart size.
