

Memories en Couleur

A modern reinterpretation of ancient textures and materials, the capsule collection consists of six colors that feature soft, tonal variations centered on a neutral palette, enhanced by a selection of bolder colors that add a distinguishing look to a space.

MEMORIES EN COULEUR

ENFANCE

A warm, soft white for creating airy and timeless interiors.

POUDRE

A mid-tone off white with a hint of yellow for creating both sophisticated and understated backgrounds, with unmatched depth and warmth.

RÊVE

A cool off white serves as a light architectural grey, working particularly well in modern spaces.

CIEL

A mid-tone blackened blue, giving a subtly aged feel, depth and balance to any room.

CAP FERRET

A silvery green with a subtle and soothing feel due to its lightened sage undertones.

TERRE

A perfect mid-tone gray-beige with hints of warm taupe. It complements a contemporary room just as well as it does a historic house.

The organic colors are made with Color Atelier's Limewash, a natural mineral-based paint that is breathable, durable, healthy, and environmentally friendly, achieving a matte velvety finish.

The colors mimic a surface found in the natural world, adding a sense of history and gravitas to a contemporary environment.
