

Zimmerman Shoes are based on traditional sizing. This size chart was designed from our molds (lasts) used to shape each one of our shoes.

Printing Instructions:

- Please print on standard 8.5"x11" (letter) paper, as is (no scaling).
- To ensure that our sizing chart is printed on the correct size paper, please place a credit card in the box lower left hand corner. If it fits within the dimensions below, the sizing chart was printed correctly.

Fitting Instructions:

1. Place the sizing chart on a flat surface.
2. Have your child stand with their heel placed in the half circle below.
3. Be sure to measure both the left and right foot using the line just before their longest toe.
4. Write down the size of each foot using the template below.
5. Based on your measurements, select the correct size using the larger of the two numbers.

Note: Our sizing chart starts at an infant's size 0 and ends at a youth size 3. As a reference, an average one year old child is a size 4. Please note sizing does vary per child. This size chart is exact, if you would like growing room please size up one half size to one whole size.

PLACE CREDIT CARD HERE
 This will ensure our sizing chart is printed on the correct size paper (letter, 8.5x11).

	Length
Left Foot	
Right Foot	

<u>Sizes</u>	2-3 (infant)	4-5 (toddler)	6-7 (toddler)	8-9 (child)	10-11 (child)	12-13 (child)	1-2 (youth)	3 (youth)
<u>Width</u>								
Medium	5 ¼"	5 ½"	5 5/8"	6"	6 3/8"	6 1/2"	6 3/4"	7"
Wide	5 ½"	5 5/8"	5 ¾"	6 1/8"	6 ½"	6 ¾"	7"	7 1/2"

Most of our styles are offered in both medium and wide width options. To determine what's best for your child, comfortably wrap a flexible measuring tape around the ball of your child's foot (the widest part just behind the toes). Match the number you get to the width below based on his or her size. If in doubt, always size up. Please don't forget to leave room for socks and tights!
