### STANDARD EN 388:2016 +A1:2018 Level

Abrasion Resistance	3
Cut Resistance	X
Cut Resistance (TDM)	F
Tear Resistance	4
Puncture Resistance	3

### GLOVE DESCRIPTION

The gloves have a medium weight rough natural latex coating. The gloves give all round performance and they are suitable for most construction work and general industrial assembly operations.

**MARKING** Style, performance, size UKCA and CE

### Intermediate Safety category

Gloves are designed to protect hands in the working environment in accordance with EN 388:2016, EN21420:2020. When selecting a glove based on risk analysis it should be understood that the protection is limited to the risk level and standards mentioned above

None of the materials or processes used in the manufacture of these products is known to be harmful to the wearer.

This series satisfies the basic requirements of the PPE Regulation (EU) 2016/425 in being innocuous/free from nuisance factors, ergonomic and breathable. Conditions of use are not simulated by the test results and as such service life cannot be specified.

### CAUTION

These gloves contain **NATURAL RUBBER LATEX** which may cause an allergic reaction in some users. If affected discontinue use immediately and seek medical advice. Users with a known sensitivity should avoid contact

### Warnings:

Test results apply to the palm region of the gloves as received and results after any cleaning cannot be guaranteed. Do not use near moving machinery due to entanglement hazard. Overall classification does not reflect the performance of the outermost layer. These gloves may not be suitable for protection against sharply pointed objects such as hypodermic needles. Do not expose to open flame.

### CARE / MAINTENANCE

Cleaning and disinfection is not intended for these gloves. Both new and used gloves should be thoroughly inspected before use, especially after cleaning treatment, and before being worn to ensure no damage is present. Gloves should not be left in a contaminated condition if re-use is intended, in which case gloves should be cleaned as far as possible, provided no serious hazards exists, before removal from the hands. Excess contaminant should first be removed and the gloves may be de-contaminated with mild detergent solution, then rinsed with clean water and dried ideally with some air movement. When the contaminant is not removable or presents a potential hazard it is advisable to ease left and right hand gloves off alternatively using the gloved hand so that the gloves are removed without the contaminant contacting the bare hands. Do not wring. Do not tumble dry. Do not use bleach. Contaminated gloves should not be used.

Warning:

### PACKING AND STORAGE

The gloves are packed in bundles, along with this leaflet. The bundled gloves are then placed in cardboard cartons. This is suitable for transportation and storage. Store the gloves in cool dry place and out of direct sunlight. Ideally stored between 5 and 25C in a dry well ventilated area in original packaging.

### OBSOLESCENCE

Stored correctly, the gloves' physical properties will not change for up to five years.

### GENERAL

The quality systems used to manufacture and supply the gloves are in compliance with ISO 9001:2015.

### EU & UK DECLARATION

Bennett Safetywear Ltd declares that the new PPE as described in the TD 1059 technical specification for PRO-TEX F GLOVES are in conformity with the provisions of European Council Regulations (EU) 2016/425 and as amended to apply in GB, and with the national standard transposing harmonised standard No BS EN 388:2016 +A1:2018, BS EN ISO 21420:2020, and is identical to the PPE which is subject of UKCA certificate LECFI00384015 issued by: ITS TESTING SERVICES, CENTRE COURT, MERIDAN BUSINESS PARK, LEICESTER, U.K., LE19 1 WD, Approved Body Number: AB0362 who performed the type-examination and is subject to the procedure set out in the legislation UK 2019 S1696 Schedule 35 Regulation 38 and is also the subject of the EU certificate. No: OZO296-CPT005/19, issued by: Mirta KONTROL d.o.o. Gradiška 3, 10040 Zagreb, Dubrava, Hrvatska (Croatia) Their notified body number is 2474.

Signature: Mr E. Baker .Quality Manager
