DESCRIPTION

Polyester /Cotton /(leather) paramid compoiste sandwich limb guard. offering excellent cut resistance for use with glass, sheet metal and other sharp objects

MARKING

Each packet shall be labelled / contain the appropriate marking with regards to the amount, type , size, manufacturer , performance levels and UKCA & CE mark. Labels on the limbguards will contain similar information. This information will be provided in the minimum resale quantity.

BENNETT SAFETYWEAR LTD

7-11 MERSEY ROAD, CROSBY, LIVERPOOL L23 3AF TECHNICAL DIGEST No 1064

INTERMEDIATE SAFETY CATERGORY

Limbguards are designed to protect hands in the working environment in accordance with BS EN 388:2016, BS EN ISO 21420:2020. None of the materials or processes used in the manufacture of these products is known to be harmful to the wearer.

When selecting a limbguard based on risk analysis it should be understood that the protection is limited to the risk level and standards mentioned above.

None of the materials or processes used in the manufacture of these products is known to be harmful to the wearer.

WARNINGS:

Do not use near moving machinery due to entanglement hazard. Overall classification may not reflect the performance of only the outermost layer. These limbguards are not be suitable for protection against sharply pointed objects such as hypodermic needles. Do not expose to open flame.

CARE / MAINTENANCE

Cleaning and disinfection is not intended for these limb guards.

Both new and used limb guards should be thoroughly inspected before and after use, especially after cleaning treatment, and before being worn to ensure no damage is present. Damaged limb guards should not be worn and should be disposed of. Wet or contaminated limb guards should not be used. Dirty limb guards may not provide the same level of protection as that shown. Limb guards should not be left in a contaminated condition if re-use is intended, in which case limb guards should be cleaned as far as possible, provided no serious hazards exist, before removal from the hands. Excess contaminant should first be removed, e.g. loose dirt can be brushed off with a soft brush. The limb guards may be de-contaminated with mild detergent solution, then rinsed with clean water and allowed to dry naturally, ideally with some air movement. When the contaminant is not removable or presents a potential hazard, it is advisable to ease left and right hand Limb guards off alternatively using the gloved hand so that the Limb guards are removed without the contaminant contacting the bare hands. Washing is not recommended.

Do not wring. Do not tumble dry. Do not use bleach. Limbguards may be rinsed in water and allowed to drip dry in ambient temperatures. Reshape whilsts still damp.

Warning: ⊠ □ ※ ※

PACKING AND STORAGE

Can be used under normal climatic conditions. Limbguards shall be wrapped in polymeric packaging.

Limbguards can be used up to five years after date of supply if stored correctly. Store in original packaging. Limbguards should be ideally stored

in a cool dry place away from direct sunlight at ambient temperatures(between 5°C and 25°C) in a dry well ventilated area in original packaging to maintain the optimum properties of the glove. The limbguards are packed in bundles, along with this leaflet. This bundle is suitable for transportation and storage.

OBSOLESCENCE

Stored correctly, the limbguards' physical properties will not change for up to five years.

GENERAL

The quality systems used to manufacture and supply the Limbguards are in compliance with ISO 9001:2015.

DECLARATION Bennett Safetywear Ltd declares that the new PPE as described in the TD 1064 technical specification for Armatex® Limb guards is in conformity with legislation UK 2019 S1696 Schedule 35 Regulation 38 and provisions of European Council Regulations (EU) 2016/425, and with the national standard transposing harmonised standard No: : BS EN 388:2016, BS EN ISO 21420:2020 and is identical to the PPE which is subject of UKCA certificate LECFI00383907 issued by:ITS TESTING SERVICES, CENTRE COURT, MERIDAN BUSINESS PARK, LEICESTER, U.K., LE19 1 WD, Approved Body Number: AB0362 who performed the UKCA type-examination and is subject to the procedure set out in the legislation UK 2019 S1696 Schedule 35 Regulation 38 Module C and also identical to the PPE which is the subject of the EU certificate. No OZO296-CPT005/20 issued by: Mirta KONTROL d.o.o. Gradiška 3, 10040 Zagreb, Dubrava, Hrvatska (Croatia) Their notified body number is 2474 who carried out the EU type examination certificate European Council Regulations (EU) 2016/425 module C
