## PLATE CARRIERS

### T3 Geronimo 2 Plate Carrier with Quad Release System

T3-G2QR Size S-XXL

Our G2 Quad Release plate carrier is a revolutionary piece of gear, combining all the G2 attributes with a versatile and remarkable cut away system. With the G2Q's simple release system, the central trigger allows you to instantly release all four of the buckles. Reassembly is what makes this carrier so unique. It is almost as easy to put the carrier back together as it is to use the quick release system. Low profile and highly modular, like its predecessors, it fits SAPI and ESAPI plate and soft armor backers (sold separately), and its front panel carries 3 x 5.56 or 2 x 7.62 magazines secured by kangaroo inserts, plus an integrated MOLLE system.

Dimensions: 14"x11"x2"

Weight: 3.2lbs

## PLATE CARRIERS

## PLATE CARRIERS

### T3 Geronimo 2 (G2) Plate Carrier

T3-G2 **Size S-XXL**

The G2 is both low profile and highly modular. It accepts all sizes of SAPI and ESAPI plates as well as T3's spec soft armor plate backers (sold separately). The G2 converts from a stand alone plate carrier to a full wrap around armored plate carrier with cummerbund.

Designed for operators who use multiple weapons platforms, it is entirely scalable and the small side straps are easily removed so they are out of the way when the cummerbund is being used.

Dimensions: 14"x11"x2"

Weight: 3lbs

### T3 Geronimo 3 Dual Armor Carrier with Quad Release System

T3-G3DAEPCSM **Size S-XXL**

Staying true to its Geronimo roots, the G3 Dual Armor Carrier with Quad Release System is low profile, highly modular and a cutting-edge piece of gear. Built to accept concealable-cut Soft Armor Inserts, it has a fast release system that allows you to instantly release all panels with a central trigger in case of emergency. Reassembly is what makes this carrier so unique—it is almost as easy to put the carrier back together as it is to use the quick release system.

Dimensions: 14"x2"x25"

Weight: 3.25lbs

- Fits SAPI and ESAPI plates and concealable soft armor backers (sold separately)
- Front panel carries 3x5.56 or 2x7.62 magazines secured by kangaroo insert
- MOLLE/PALS compatible
- Top drag handle made of heavy-duty dive webbing is secured by Velcro® until needed
- Padded shoulder straps lined with spacer mesh help distribute weight of any size operator and encourage air flow
- Wire management system on shoulder straps
- Duraflex Quad Release System
- 500D solution dyed Cordura
- Military spec bar tacking at stress points

## TOMAHAWK PLATE CARRIERS

## TOMAHAWK PLATE CARRIERS

## T3 Tomahawk 2 Plate Carrier

T3-T2

With all of the features of the original, the Tomahawk 2 Plate Carrier is an ideal addition to your protective kit. The front of the carrier has a kangaroo pouch that holds magazine inserts and an easily accessible zippered admin pouch. The back of the carrier can hold a hydration bladder. The cummerbund carries a total of six M4 magazines. Once you adjust our padded shoulder straps, they are locked into place with Fastek buckles.

- One size fits most
- The carrier accepts 10"x12" plates

Dimensions: 12"x3"x12"

Weight: 3lbs

## T3 Tomahawk Plate Carrier

T3-TPC1

Our Tomahawk Plate Carrier is a lightweight, rugged and cost effective designed for our law enforcement community. The front of the carrier has a kangaroo pouch that holds magazine inserts or functions as a readily available admin pouch.

- One Size fits most
- The carrier accepts 10"x12" plates
- Pairs well with our T3 Cummerbund Soft Armor Pocket Kit

Dimensions: 12"x3"x14"

Weight: 2.2lbs

## TOMAHAWK PLATE CARRIERS

## CHEST RIGS

GEAR GUIDE

### T3 Tomahawk Low Vis Plate Carrier

T3-TLVSC

The T3 Tomahawk Low Vis Plate Carrier is the plate carrier to wear during surveillance operations, under raid jackets or just when you want a very low profile, lightweight option. This carrier was built to not be seen. Designed with low visibility and low profile in mind, it accepts 10x12 Level IIIA Soft Armor Inserts, Level 3+ Steel Plates, or Level IV Stand Alone Hard Armor plates. Hypalon keeps the shoulder straps slim while still distributing weight evenly across the shoulders. A double magazine pouch for 5.56 is included and the cummerbund holds two magazines or a magazine/radio combo.

Dimensions: 12"x3"x10"

Weight: 2lbs

### T3 Range Day Rig

T3-RDR

The T3 Gear Range Day Rig was designed specifically for our range and outdoor enthusiasts. Coming in at less than one pound, this lightweight option has just enough space to hold several reloads before you need to top up. When worn by itself, the Range Day Rig is a must for all carbine-based training this summer. Unlike traditional plate carriers, the low profile straps make this system ideal for use with backpacks.

The addition of standard MOLLE webbing on the front allows for a broad range of customization. We recommend adding magazine pouches or small zippered utility pouches here.

The Rig ships with everything that you will need to get it up and running. The heart of the system is a standard kangaroo style placard with an elastic M4 format insert and a spacer mesh backing for comfort. This part can be completely detached from the harness and is compatible with most plate carriers with 1" quick release buckles. Also included with the Range Day Rig is the two part harness system with an inner webbing component, as well as an outer padded sleeve.

- Low profile padded H-Harness
- Fits comfortably under a backpack
- MOLLE webbing on front allows for customization
- Kangaroo style placard with an elastic triple M4 insert
- Designed to clip and velcro onto the front of the Tomahawk LC Plate Carrier
- Primary material: 500d Cordura

Dimensions: 9"x5"x1"

Full system weight: 14.3oz

GEAR GUIDE

## LASER CUT LINE

T3 uses a Laser Cut Technical Laminate constructed from coated 500D Cordura backed with a layer of 1000D Cordura. This highly durable fabric eliminates the need for traditional MOLLE webbing reducing bulk and weight.

## T3 Tomahawk LC Plate Carrier

T3-TLC

- Lightweight and modular, this carrier is built to be customized
- Constructed of Technical Laminate
- Elastic cummerbund includes three built-in M4 size magazine pouches

## LASER CUT LINE

## T3 Spear Chest Rig Gen 2

T3-SPCRG2

Our Spear Chest Rig Gen 2 is a highly versatile platform that is lighter, sleeker, and more modular than its predecessor.

We designed this chest rig to work well over a slick plate carrier or with a backpack. The harness has a lower profile than the original, reducing snag hazards and improving comfort when used under pack straps. The strap also has laser-cut sections for attaching PPTs, hydration hoses, or radio antennae. The harness can be attached to the body of the chest rig using the 1" side release buckles or swapped out with any standard 1" hardware (1" typical loop included).

The main Velcro® placard ships with a four-cell M4 elastic insert. Laser-cut MOLLE — three columns on each wing and eight across the front — line the front and sides of the rig to attach additional pouches. The back of the rig is lined with Velcro® and is compatible with most industry-standard plate carriers. On the inside, two internal 4-inch woven elastic stretch pouches are large enough to accommodate a wide variety of radios — 152, 163, MBITR, XTS 5000.

The harness is compatible with several mounting options — side release buckles, G-Hooks — and can be worn in H or X configurations.

- Constructed of Technical Laminate
- 500D Cordura
- MIL-SPEC Hardware

- Unique Curved Construction

## BAGS/BACKPACKS

## BAGS/BACKPACKS

### T3 Bolt Bag

T3-BB

Our Bolt Bag is ideal for rapid deployment and bail out situations. It provides operators with convenient access to all its compartments while still being low profile enough to grab and go. The main interior compartment features pockets for smaller items and slots for pens. There is also an internal kangaroo pouch, double pistol magazine pocket and radio pouch. The back has a flat 12"x8" pocket and a belt loop for securing the bag while moving. The exterior holds six 5.56 mags, and the fully adjustable shoulder strap is secured with a quick release buckle. Dimensions: 10"x13"x6" Weight: 1.69lbs

### T3 Medical Backpack

T3-MBP

Designed to the exacting standards of special forces medics, our pack includes four pull out color coded removable pouches. Each kit can be easily removed and used in the event of a casualty. The pack is outfitted with smaller pockets, pouches and elastic loops for storing a variety of instruments, bandages, and dressings. It is large enough for a lightweight, poleless litter/poncho and is equipped with packable padded shoulder straps. Made of 500 denier Cordura, the pack can be secured to vehicles and aircraft.

Additional MOLLE pouches (sold separately) accommodate both 1000ml and 500ml IV bags; quick disconnect straps allow the bag to be easily strapped into a vehicle and disconnected.

Dimensions: 21"x11"x4"

Weight: 4.7lbs

### T3 Proteus Bag

T3-P2RB

The T3 Proteus Bag is the multipurpose backpack you've been searching for. Originally designed for EOD and Special Ops Radio operators, the Proteus Bag has attracted everyone from adventure sports enthusiasts to law enforcement and EMT professionals due to its compact size and versatility.

- Main large compartment designed to carry combat radio or other bulky items
- Front admin pocket for easy access to essential items
- Both compartments lined with loop Velcro® to secure gear
- Multiple MOLLE attachment points allow the user to add additional accessory pouches
- Top ports to run hydration bladder tube or radio cables
- Cable management system throughout bag
- Padded shoulder and kidney straps help distribute weight
- Back panel is lined with spacer mesh for airflow to keep operator cool
- Can be used on the T3 Light Weight Ruck Frame for added comfort and rigidity
- Optional reversible rain cover (sold separately)
- 500D solution dyed Cordura
- Solution dyed webbing
- YKK zippers

Dimensions: 9"x17"x3"  
Weight: 2.5lbs

\*Special Order

### T3 Hans Backpack

T3-HANSBP

- Designed to accommodate the needs of EOD Operations, T3's Hans pack is the most versatile backpack on the market today
- Large compartment holds H<sub>2</sub>O Bladder (100oz) and carries the main load for weight distribution
- Smaller compartment holds up to 2 5590 batteries
- Side pouches hold either a nalgene size bottle or a standard charge C-4
- External compartment is designed to carry a helmet size object
- 3 ways to carry: 1) Shoulders traps, MOLLE, and quick connect to MOLLE webbing to be quickly attached to a plate carrier

Dimensions: 17"x14"x12"

Weight: 2.2lbs

### T3 Tool Bag Small

T3-TB-SM

- Strong and compact design for carrying and organizing small items
- Secured by a zipper and equipped with a nylon handle
- Ideal for toiletries and grooming items

Dimensions: 5"x12"x10"

- \*Special Order

### T3 Combat Controller Ruck

T3-CCTBP

Designed for the US Air Force Combat Controllers, the Combat Controller Ruck (CCR) is the perfect bag to carry heavier loads. We took our PJ MOLLE Ruck Wall Kit and put a tri-zip backpack around it, allowing for great customization on this 3-day pack.

- Tri-zip allows for ease of access to large main compartment from top, front and side
- Internal MOLLE wall allows operator to easily configure mission-critical equipment
- Built in admin pockets and hydration bladder sleeve
- 5 integrated cable/hydration ports at the top
- Top pocket lined with mesh holds essential gear
- Padded and contoured shoulder straps and kidney belt provide comfort and stability on any terrain
- Side compression straps keep gear secure and prevent heavy loads from sagging
- Mounted to the T3 Light weight jumpable ruck frame for added rigidity
- Loop Velcro® for morale patch
- 500D solution dyed cordura
- MOLLE/PALS system compatible
- Hypalon base stands up against wear and tear
- YKK zippers
- Dimensions: 16"x17"x22"
- Weight: 8lbs
- \*Special Order

## BAGS/BACKPACKS

T3-PRONG-FLEX

- Available in Black or Navy

### T3 American Flag Hat

T3-AFH

- FLEXFIT hat with embroidered American flag
- Available in Black or Tan

### T3 Hat

T3-H

- FLEXFIT with embroidered T3 Logo
- Available in Black or Tan

### T3 Triton Operator Belt Gen 3

T3-TOB3

The updated design of the Gen 3 delivers all of the same comfort with increased functionality and durability. We adjusted the width to accommodate a larger variety of holsters. The 1.75 inch D-Ring Cobra Buckle is the most secure way to attach a retention lanyard or other accessories.

- Fully adjustable to customize the fit
  - Inner Riggers Belt made of loop Velcro® will not pick up debris when worn on its own
  - Stiff outer duty belt is made from scuba webbing and is lined with hook Velcro to easily secure to inner belt
  - Features 2 rows of MOLLE panels that provide plenty of real estate to attach any number of compatible accessories
  - 1.75 inch D-Ring Cobra Buckle makes this belt easy to secure and remove
- Length: Small 26-30; Medium 28-32; Large 32-36; XL 35-39  
Width: 1.75"  
Weight: 12oz

### T3 Riggers Belt

T3-RB

### T3 Loop Riggers Belt

T3-LRB

## TACTICAL ACCESSORIES

### K-9

### T3 K9 MOLLE Harness

T3-K9MH

- Stable design allows for maximum mobility and all day comfort
  - Reinforced handle allows you to easily lift your dog
  - 500D solution dyed Cordura
  - Adjustable fit to accommodate most mid-large K9s
  - A single quick release buckle
  - 3 MOLLE rows, each with 6 sections
- Weight: 1.3lbs

### T3 K9 Patrol Lead

T3-K9PL

- Designed for anyone handling a canine to quickly secure and release their animal wearing a collar or K9 vest
  - Stitching and strength accommodates animals of all sizes
  - Loop handle and added bungee within leash creates a self-correcting system that is low impact to an animal
- Dimensions: 62" long

## SLINGS

### T3 Single Point Sling Gen 2

T3-SPS2

The Single Point Sling G2 is our most popular sling. It's designed to attach directly to your vest or plate carrier. Constructed with bungee, that allows enough movement for weapons strikes.

- Holds setting until the operator chooses to change the configuration
  - Reverse stitching is used wherever possible to enhance durability
  - Minimal use of binding tape
  - T3 MILSPEC bar tacking
- Dimensions: 28"x1"  
Weight: 2.58oz

### T3 K9 Quick Harness

T3-K9QH

- Beefy 1000D solution dyed Cordura
  - Reverse stitching is used wherever possible to enhance durability
  - Minimal use of binding tape
  - T3 MILSPEC bar tacking
  - Adjustable fit to accommodate most mid-large K9s
- Weight: 1lb

### T3 K9 Tactical Lead

T3-K9TL

- Designed with two sections: one end has a quick release snap shackle allowing the animal to be hooked onto the handler; the other has a frog clamp allowing for a quick release
  - Features a hands free leash allowing operator/handler the ability to utilize a weapons system and maintain positive control of the K9
  - Unique bungee system inside tubular nylon acts as a shock absorber for anyone carrying a weapon, in case the dog pulls on the leash
- Dimensions: 62" long

### T3 2 Point Adjustable Sling Gen 2

T3-2PASG2

Our new offering is as refined as we can make it, with no metal components and open ends for customization. It's fully adjustable and can accommodate a wide variety of weapon systems.

- No metal hardware
  - Two piece design with side release Fastex buckle in the middle
  - Soft and slick tubular webbing instead of thick padding
  - 3" reinforced pull tab
  - Open ends for user customization with Tri-glide
  - 20"-35" front adjustable section with a 26" of tubular webbing in the back
- Weight: 2.9oz

## TACTICAL ACCESSORIES

GEAR GUIDE

### T3 MOLLE Weapons Catch

T3-MWC

- Made with an aluminum insert, covered with PV material making it extremely light and durable
- The aluminum allows it to be bent for smaller weapons like an M4. Additionally, it can be opened wide for heavy weapons, like a SAW

Dimensions: 2"x5"x3"

### T3 Belt Mounted Weapons Catch

T3-BMWC

### T3 Data Book Cover

T3-DBC

- Designed to carry note taking gear or data books
- Features internal pockets and pen/pencil retention slots
- External pocket fits most cell phones, also has Velcro® for name tapes or flags on front cover
- Dimensions: 9"x6"x1"

## TACTICAL ACCESSORIES

### T3 Tactical Armband

T3-TAB

A streamlined design that fits comfortably around the forearm for easy access to multiple picture windows. Identify HVT's, check sniper come ups, execution lists, maps, range cards, and language cards. Instead of using Velcro®, we chose a tuck tab opening for quiet and convenient access to essential information. Dimensions: 4.5"x11"
