LIGHTING

About Lighting Agent

We are a business-to-business manufacturer and wholesaler of luxury lighting with various wide-range designs of the highest quality. We aim to continuously inspire the interior design industry with our extensive collections.

With our manufacturing facility based in China and our head office in the UK, we are able to offer sales, supply, R&D and support to our customers worldwide. We also own and exclusively supply products under our brand Cinderella Lighting.

Lighting Agent's manufacturing department has numerous engineers who have gained decades of experience and skills in metal cutting and polishing, glass processing, specified crystal making, wood work and grinding, LED materials, shade manufacturing, PVC finishing, assembling, electricity installations, plating, painting, screws and many other relevant accessory manufacturing. Our team have strong ability and expertise to interpret and produce any lighting design, no matter grand or small, intricate or basic.

Lighting Agent is based in the heart of Europe and cooperates with outstanding global designers through intensive development as well as having partnerships with leading architects and interior design experts enabling us to participate in a number of significant projects around the world.

Premium Service & Worldwide Shipment

Lighting Agent's supply chain department follows every little detail to reach our customer's requests. Our professional QC team ensure only the best quality materials and warranted quality. The products are again checked for quality whilst being comprehensively prepared for transportation to the customer's satisfied hands. Our transport department ensures that all orders are systematically and swiftly processed. Whether your business is located in Asia, America, Europe or further overseas, Lighting Agent understand and embrace international differences and have the suitable logistic capabilities and partnerships to make sure operations run smoothly.

Lighting Project Operations

Lighting Agent's project team specialise in providing unique and sophisticated lighting designs and installations, mainly for hotels, restaurants, bars, lobbies, malls, buildings, palaces and for any individual requests. Our rich experience of project operations help to solve our customer's quality and technical issues efficiently.

FACTORY WITH UNLIMITED PRODUCTION CAPABILITIES

DESIGN - MANUFACTURE - INSPECTION - LOGISTICS - DELIVERY

From the design, development and manufacture of products to special accessories and installation, we provide a complete range of services in order to meet the needs of every customer.

We actively listen to our customers to deeply understand their needs and deliver the unique solutions that ensure their success.

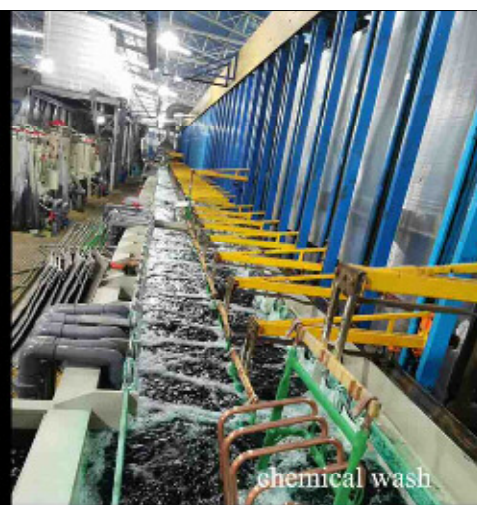

We passionately pursue new technologies, capabilities and approaches, and work seamlessly across geographies to fully leverage our unmatched breadth and expertise in the design, manufacture and delivery of our products.

Scope of our services:

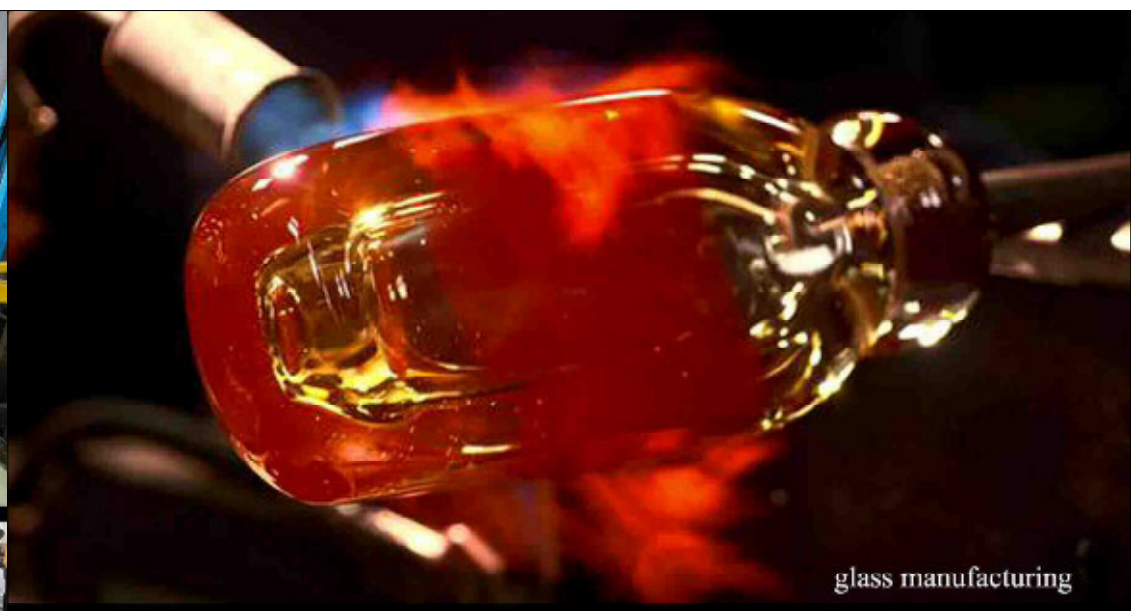

- Consultancy of lighting design
- Recommendations of lighting specification
- Professional technical advice and support
- CAD engineering and shop drawing preparations
- Product demonstration and sample supply
- High quality tailor-made lighting fittings manufacture
- Co-ordination with client's interior designers and contractors
- Production reporting
- Product certification testing
- Professional packing service
- Installation consulting
- Complete on-site testing & commissioning, assembly, installation and supervision
- Post-installation maintenance within our warranty period

WORLDWIDE PROJECTS EXCEEDING EXPECTATION

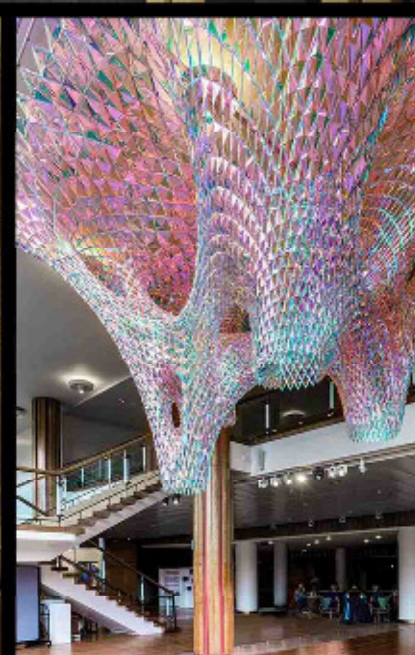

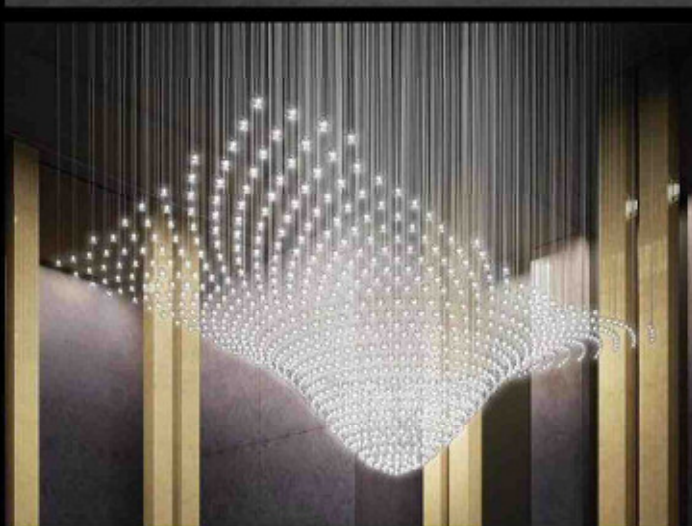

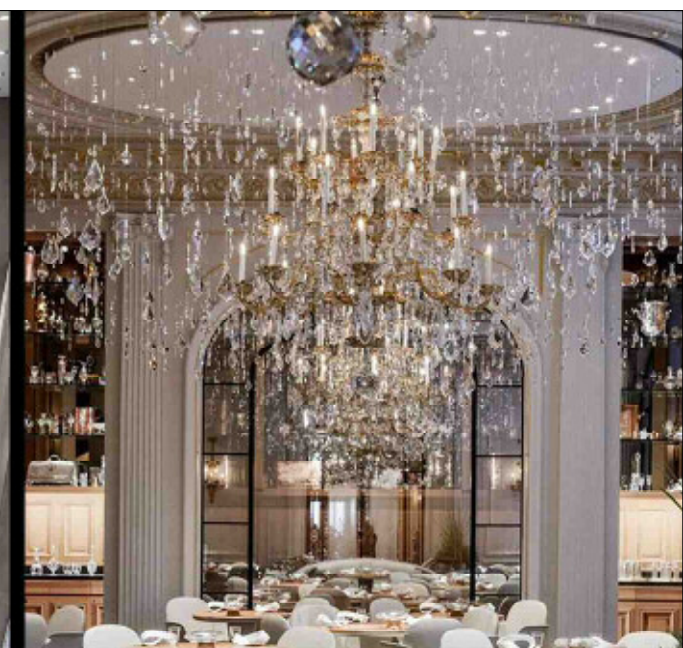

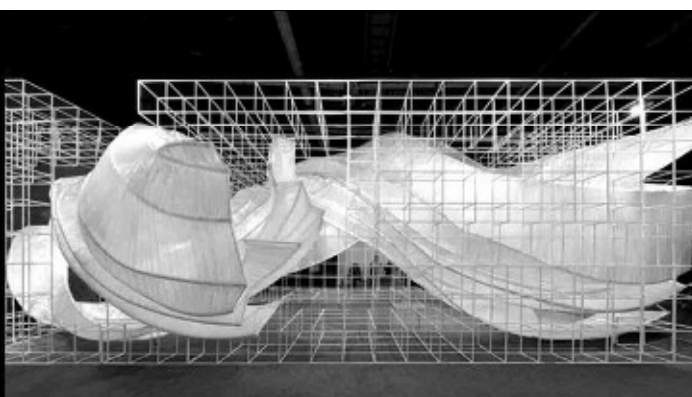

We design, develop, manufacture and install tailor-made fittings and lighting installations on a project basis to meet individual customer's requirements. Our attention to detail as reflected in the shop drawings is enhanced by our strong engineering capabilities.

Scope of our services:

- Lighting fixture design and consultation
- Full specification guidance
- Professional and technical advice
- Project design drawings
- Production samples provided
- Full project design and management under one roof, including liaison with designers and contractors
- Production progress reporting
- Product certification testing
- Secure and protective packaging
- Installation cooperation
- Problem prediction and debugging
- After sales service and warranty
