

SAPPHIRE SIZE GUIDE

PRINTER SETTINGS

Before printing this page, make certain changes to your print dialog box:

- Uncheck the “fit to page” option
- Set the page scaling to “none” or set custom scaling to “100%”

To confirm that the page is properly sized, print this page and measure the “5cm” reference image with a ruler. If it does not match **exactly**, the sapphire size may not be shown accurately.

SAPPHIRE SIZE CHART

OVAL SAPPHIRE SIZES					
Carats	1.65	1.06	0.59	0.35	0.22
Approximate Dimensions	8mm x 6mm	7mm x 5mm	6mm x 4mm	5mm x 3mm	4mm x 3mm
Size Chart					

Above shapes are how a sapphire is seen when viewed from the top. Above sizes may vary slightly depending on the depth of the gemstone. Given the same carat weight, different jewelry designs may use gemstones of slightly different dimensions to achieve the unique look. Please note that gemstones are available in sizes in between the dimensions shown above. This is just a guide to help you gauge the approximate gemstone size you fancy.

ROUND SAPPHIRE SIZES							
Carats	1.09	0.83	0.66	0.45	0.34	0.22	0.08
Approximate Dimensions	6mm	5.5mm	5mm	4.5mm	4mm	3.5mm	2.5mm
Size Chart							

Above shapes are how a sapphire is seen when viewed from the top. Above sizes may vary slightly depending on the depth of the gemstone. Given the same carat weight, different jewelry designs may use gemstones of slightly different dimensions to achieve the unique look. Please note that gemstones are available in sizes in between the dimensions shown above. This is just a guide to help you gauge the approximate gemstone size you fancy.
