Have fun!

The unique texture on each individual tile is intended to create one-of-a-kind masterpieces that when assembled together give rise to the fun and satisfying experience of exploration, of playing with patterns as you move from tile to tile.

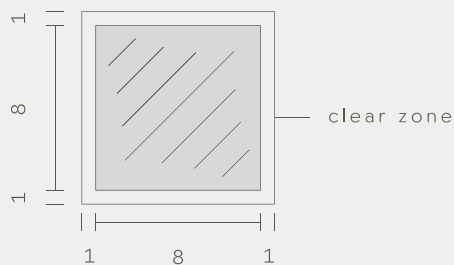

1

Any adhesive or silicone is suitable for the installation of the tile. Please be aware some silicon varies depending on the surface applied.

2

Apply the adhesive in the back covering a maximum of a 8 x 8 cm surface leaving at least a 1cm clear perimeter to avoid any possible leak out.
