## FROM BONDI TO THE BIG APPLE

### HARBOUR CO-FOUNDERS, NICHOLAS & HARRISON CONDOS OPEN GLOBAL FLAGSHIP SHOWROOM IN NEW YORK CITY

**New York City (May 2024)** – Harbour, the Australian lifestyle brand renowned for its high-end outdoor furniture, has announced the launch of its global flagship showroom at 60 Madison Avenue in New York City. Officially opening on May 17, 2024 during NYCxDESIGN Week, this marks a milestone for the brand as it continues to expand on a global scale.

The move to 60 Madison Avenue signifies a proud moment for the co-founders, who expanded their family business from Sydney, Australia to the U.S. in 2009, starting in a modest office on Canal Street. They have since opened showrooms across the country in locations including Miami, Los Angeles, Orange County, and Houston – and have expanded internationally in Sydney, Hong Kong, and Korea.

The brand new 8,000 square foot showroom will display Harbour’s new outdoor collections for 2024 among its extensive range of existing collections, all expertly designed and crafted by Nicholas and Harrison Condos.

Nicholas Condos, co-founder and lead designer at Harbour said: “It’s a special moment to be unveiling our New York showroom, now the flagship of our global business. As a family-owned company which originated in 1976 from a humble workshop in Sydney, Australia, it’s amazing to see how the brand has grown into the global leader that it is today. This showroom is testament to where our journey began all of those years ago and is representative of what’s to come.”

Globally recognized for its unique designs, quality craftsmanship and luxury fabrics, Harbour is specified in some of the most prestigious residential, commercial and hospitality projects around the world. The brand has partnered with leading designers on collections including MLB Teak and Aluminum with Los Angeles based designer Martyn Lawrence Bullard, and Formentera with Chicago-based designer Kara Mann.

Most recently, Harbour unveiled its new outdoor collections for 2024 which seamlessly integrate indoor comfort and style with outdoor functionality and durability. At the forefront of Harbour’s new designs are **Como**, **Gio** and **Cove Luxe**, three fully upholstered outdoor collections, artfully curated and defined by their modern designs and use of high-performance fabrics. Tapping into the lifestyle brand’s classic coastal style, Harbour has also introduced two new signature collections: **Cove (Teak & Aluminum)** and **Newport**, inspired by Californian coastal and modern Australian design.

"Our designs have always been inspired by some of the world’s most iconic coastal locations, an ode to our own Australian upbringing and love for travel” adds Condos. “It is this authenticity and charm that sets us apart and allows us to continually evolve our collections to redefine outdoor luxury.”

# HARBOUR

Available now, each collection is made with luxurious performance-based outdoor fabrics and beautiful but durable materials, including recycled powder-coated aluminum and sustainably sourced premium teak.

Harbour's New York showroom located at 60 Madison Avenue, corner of Madison Avenue and E 27th Street, will be open to design professionals and the general public on May 17th. For further information, visit [www.shopharbour.com](http://www.shopharbour.com)
