RING SIZE GUIDE

Finding the perfect fit

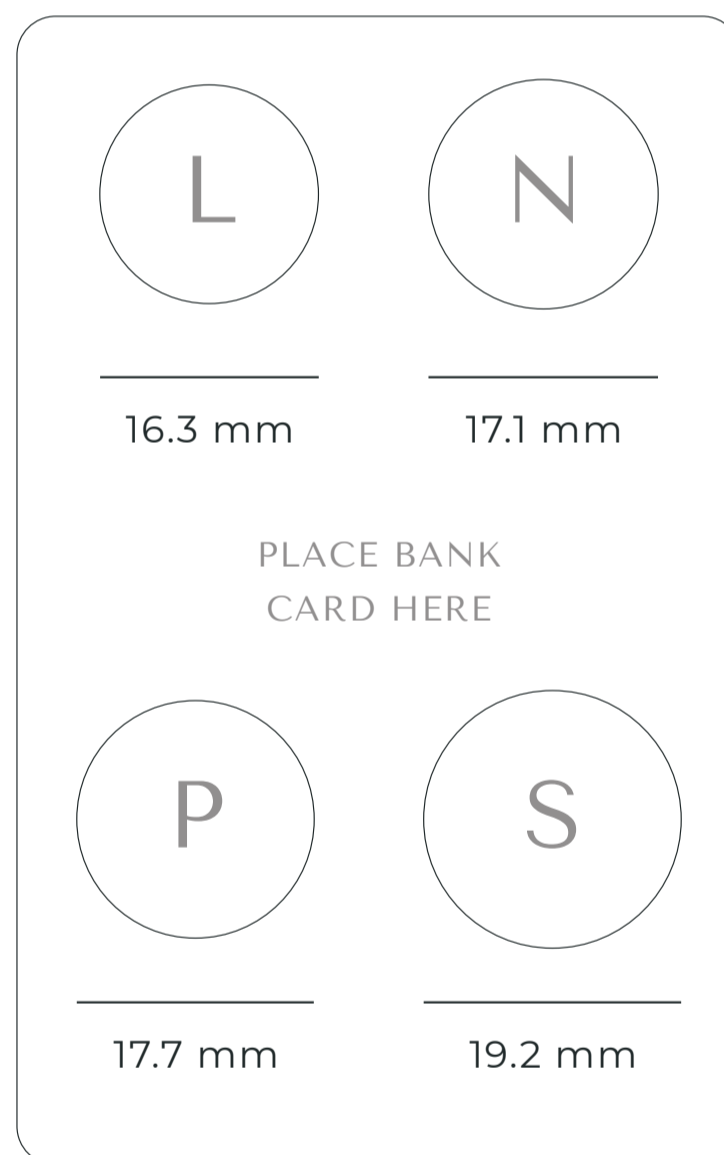

Finding your size has never been easier with our ring size guide.

STEP 1

Place bank card below to check scale.

STEP 2

Place a ring that fits you perfectly on one of the circles to find your ring size.

The circle should align with the inner edge of your ring. If you're in between sizes, we'd recommend going for the bigger size for a more comfortable fit.

STEP 3

Use our international size chart below to find your size.
