# Yealink

A Collaborative Meeting Experience at Your Fingertips

CTP20 is a collaboration touch panel that can be paired with Yealink's new generation video conference solutions. Its 13.3-inch touch screen and user-centered interactive design allow users to join or control a meeting quickly and effortlessly. It greatly reduces the difficulty of using video conferencing system and creates a better meeting experience. When CTP20 works with Yealink Wireless Presentation Pod WPP20, you can annotate or control the shared content on CTP20 directly. In addition, equipped with a new active capacitive pen that affords you a real writing experience, the CTP20 facilitate participants to focus more on the topics of discussions.

13.3-inch Multi-touch Screen · **1080P Resolution** · **Whiteboard** · **Annotation on Shared Content** · **Power over Ethernet** · **Adjustable Screen Angle**

Key Features

Richer and Easier Meeting Control Features
CTP20 adopts effortless and user-centered interaction design, making meeting control could not be more easier. The touch control of the screen outperforms traditional control modes magnificently. You can create or join a meeting on the home screen, and all meeting controls can be navigated on CTP20 with just a touch or a swipe of your finger, including previewing and adjusting the camera, changing the participant layouts, recording, etc.

More Efficient Collaboration
CTP20 features a built-in whiteboard, and up to 4 CTP20 units can be used simultaneously in one system. Multiple participants can write on the whiteboard at the same time, the real-time handwriting presentation allows participants to see what is being written with no latency and makes discussions much more effective. When paired with Yealink Wireless Presentation Pod WPP20, you can gain reverse control from CTP20 over your computer, getting a multi-screen interaction that assists you to achieve more.

### Natural Writing and Free from Distraction
CTP20 fuses together the industry-leading 13.3-inch touch screen and a scalable canvas, such that every single idea can be recorded on the ample space provided by CTP20. In addition, the new active capacitive pen is designed to bring you a real writing experience, facilitating participants to focus on the topics of discussions instead of the technology.

Clutter-free Meeting Space
CTP20 supports PoE where one cable carries both data and power for the device. Data transmission between CTP20 and the endpoint is realized either by cable or by Wi-Fi, which eliminates the tricky wiring connections between the TV area and the conference table, turning the clean and well-organized meeting spaces into reality.

- 13.3 inch IPS FHD 1080P capacitive touch screen
- Supports active pressure capacitance touch pen
- Supports whiteboard
- Supports annotation on shared content
- Connect to VCS endpoint via cable or via Wi-Fi
- Power over Ethernet (IEEE 802.3af)

CTP20 Specifications

System Compatibility	Compatible with Yealink video conferencing endpoints，including VC880/VC800/VC500/VC200 Connect to VCS endpoint via cable or via Wi-Fi Up to 4 CTP20 units in one system *	
Display	Screen	13.3-inch IPS FHD capacitive touch screen
	Resolution	1920*1080 (16:9)
	Touch	10 points multi-touch
Microphone	Built-in microphone	1 x Omni-directional microphone for voice pickup **
Wireless Network	Wi-Fi	2.4G/5G Wi-Fi IEEE 802.11n/ac
Interface	USB	1 x USB 2.0 Type-A for connecting the USB flash drive to save recording files 1 x USB 2.0 Type-C for content sharing when connecting with PC **
	RJ45	1 x RJ45 Ethernet for power and data connection
	Security lock slot	1 x Security lock slot
	Reset slot	1 x Reset slot
Other Physical Features	Power input	PoE 48V ⎓ 0.27A
	Power consumption	7W
	USB Output	5V ⎓ 500mA
	Stand	Adjustable angle (15°~70°)
	Dimension（W*D*H)	321.5mm x 118mm x 196mm
Accessories	Pen	1 x Active Pen with 1024 pressure levels

* VC880/VC800/VC500 supports up to 4 CTP20 simultaneously, VC200 only supports one CTP20 at one time.

** Content sharing and microphone functions will be supported through software updates.

About Yealink

Yealink is a global leading provider of enterprise communication and collaboration solutions, offering video conferencing service to worldwide enterprises. Focusing on research and development, Yealink also insists on innovation and creation. With the outstanding technical patents of cloud computing, audio, video and image processing technology, Yealink has built up a panoramic collaboration solution of audio and video conferencing by merging its cloud services with a series of endpoints products. As one of the best providers in more than 140 countries and regions including the US, the UK and Australia, Yealink ranks No.1 in the global market share of SIP phone shipments.
