Safety Instructions

This fitting is produced and tested in accordance with the strictest European safety standards (EN 60.598-1).

This fitting cannot be disposed of as household waste.

For disposal information ask the local authorities about how to collect it.

If the external wire is damaged it has to be replaced exclusively by the manufacturer, distributor or by a qualified electrician.

Before performing any maintenance disconnect power.

The device is only suitable for installation in doors.

Only use lamps which do not exceed the maximum specified wattage.
