# The Art of Gifting

THE MANNER OF THE GIFT IS OFTEN WORTH MORE THAN THE GIFT ITSELF

The true value of any gift is the sentiment behind it. At The Lakes, our customer care team are on hand to assist you with sending thanks to your customers, clients and team members. Our beautifully presented and flavour-packed spirits can be hand-delivered, contact-free, to the office, or directly to those homes of those you wish to treat.

For very large or bespoke orders, please contact our friendly customer care team for a quotation tailored to your needs. Discounts on pricing and postage costs are dependent on volume and the number of individual deliveries. We can accommodate sending packages to multiple addresses, personalised gift notes or specific dispatch date requests.

### ELEMENTS A WHISKYMAKER'S PROJECT

A library of whisky learnings, Elements offers a rare glimpse into the mind of a Whiskymaker.

Seeking to understand how the theory of sherry cask maturation translates to the surrounds of the Lake District and with our New Make Spirit was a fundamental step toward establishing our oak-led maturation philosophy and designing a new sherry-led single malt.

This remarkably rare and individually numbered collection of whiskies is the result of a forensic examination of what a sherry cask could be. Where each element explores the flavour, texture and aroma that can be derived from different sherry-seasoned oak casks, each playing a distinct role to create a baseline from which other flavours can be layered.
