

Removal

1

Sanitise.

2

File the top coat off with a medium/180 grit nail file.

3

Soak small pieces of cotton wool in acetone and apply to each nail.

4

Secure them with nail clips & leave them to soak for 10 to 15 minutes.

5

Remove the clips and scrape any excess gel off with an orange wood stick.

6

Buff with a soft/240 grit buffer, and apply cuticle oil.

Note:

If you are re-applying polish or gel DO NOT use cuticle oil.
