Farm Notes

The Coocentral cooperative operates under the motto "Una gran familia al servicio del caficultor, comprometida con el desarrollo de la región," which translates to: "A big family serving coffee producers and dedicated to the development of the region." It is indeed a big family, with the cooperative buying more than 10.2 million kilograms of parchment coffee from 3,483 members throughout the verdant Huila Department of south-central Colombia.

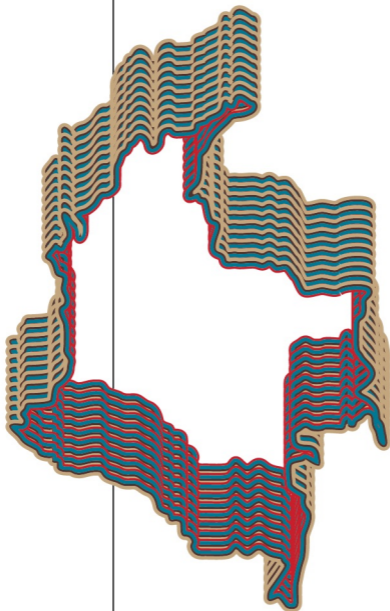

This lot is a specific blend of small holder farmers in the region, selected for its stonefruit and citrus notes and everything we love in washed Colombian coffee.
