

Custom Packaging

Whether we are matching your brand's carefully selected Pantone or customizing with an unmistakable logo, our jars and closures are the perfect template to bring your brand to life.

Materials

PET Plastic

Gloss clear, white, black and custom color.

Glass

Gloss: clear, black, and opal glass. Matte: white, black and custom color.

Sustainability

Ocean Bound Plastic

Gloss clear, white, black and custom color.

Sustainability

Post-Consumer Recycled (PCR)

Gloss clear, white, black and custom color.

Jar Deco

Silk Screen Printing

Provides a thick, even lay down of ink. Best for simple 1-2 color designs, on glass or plastic jars and closures.

Custom Color

PET jars can be produced in translucent or opaque custom colors.

Vacuum Metalize

Design a metalized finish on any glass or closure.

Glass Spray

Adds matte, gloss or tinted color to the exterior of your glass bottles and jars.

Heat Transfer Labels

Achieve detailed, multi-color decoration on jars and closures with a sharp appearance for regulations and information.

Hot Stamp

Leave a bold, one color metallic or matte print on jars and closures.

Water Transfer

High customization level with pre-printed designs applied to 3D surfaces. Cannot orient so expect variation between products.

Acid Etch

Glass surface treatment leaves a matte frosted finish. Does not change the color and is best to frost a clear or black glass jar.

Custom Packaging starts at 50M MOQ. Please contact a Sales Manager to discuss your project.

Closure Styles

■ Closure Deco

Metalized

Gold, silver and custom.

Water Transfer

Apply pre-printed designs to 3D surfaces.

Screen Printing

Provides a thick, even lay down of ink for 1-2 colors.

Hot Stamping

Metallic or matte foil leaves a bold print.

Heat Transfer

Detailed, multi-color decoration with labels on jars and closures.

Debossed or Embossed

Build your logo into our mold plates. Raise or engrave artwork for an elevated 3D touch.

Custom Color

Precise color matching to match your unique brand.

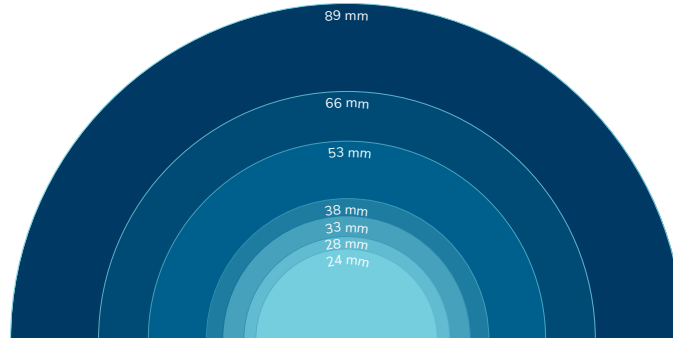

NEW

Digital Print.

Print complex, vibrant colors in detail. Available in a 3D raise with added gloss.
