Serge Ferrari

Batyline Duo

Batyline Duo is a resistant fabric, combining one warp thread and two weft threads for subtle colour combinations and a textile effect. 4 references with a twist effect: random weave, giving a flecked effect to the fabric.

Extreme outdoor
resistance with no
sag

A multitude of possible
colour combinations

Twist effect for a
natural
appearance

The Batyline durability with a vibrant color mix.

Tropic

Tropic sunlounger with legs in resin reinforced with glass fiber combined with lacquered aluminium structure. Cover in breathable synthetic replaceable fabric, back reclining in 5 positions, with non-slip feet and small wheels. Two materials combined together to make a very resistant, functional light-weight and stackable sunlounger.
