

Human-Centered & Sustainability Driven  
Performance Workwear  
for Industrial Athletes

**Hospitality Uniform  
Customization:**

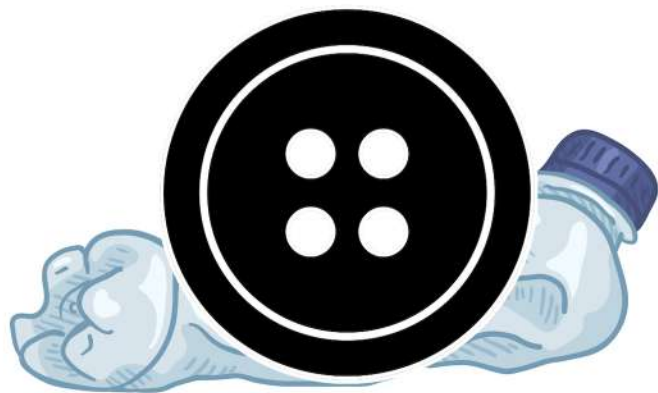

***Sustainable Uniform Solutions***

# Industrial Garment Pollution

**10%**  
Global CO<sub>2</sub>  
Emissions Yearly  
surpassing flights and  
shipping

**300**  
Million Tons  
20% of Global  
Plastic Production

TMS.SITE offers **sustainable team uniform solutions** for the tourism and hospitality industry, focusing on professionalism, safety, and performance, while **reducing the carbon footprint** and tackling waste.

## TMS.SITE SOLUTIONS

- 1** Sustainable Uniform Design & Production + Production Workflow Consultation Services
- 2** Uniform After-Care Repair Service
- 3** Uniform Upcycling Service

The Industry Must Change  
TMS.SITE is Here to **Lead the Change.**

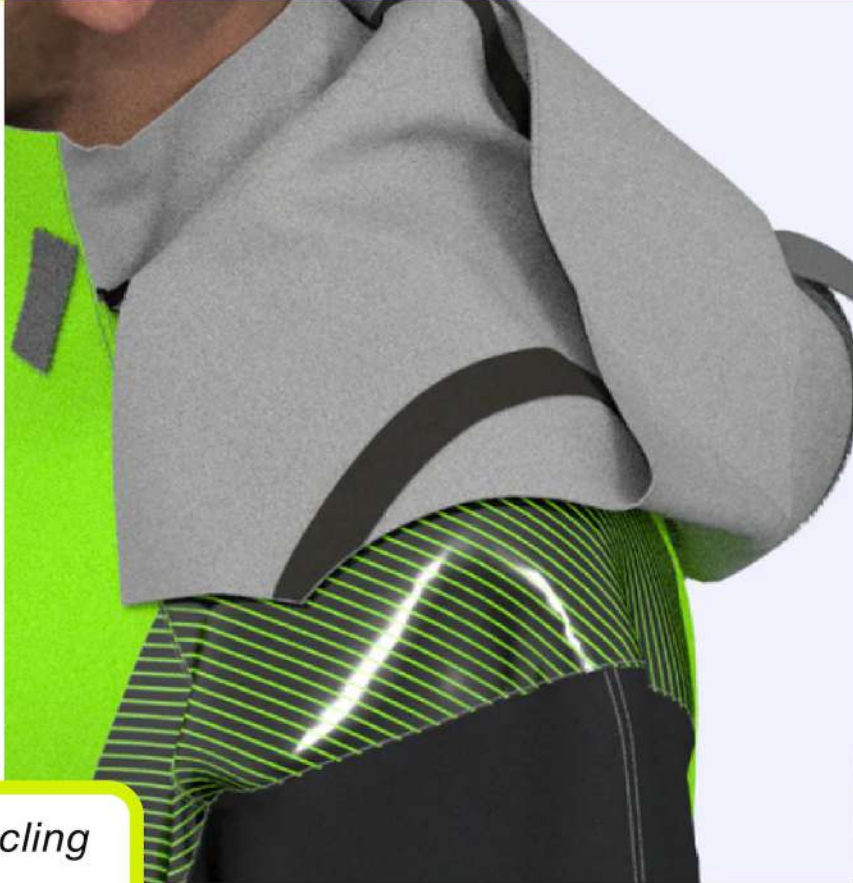

# OUR MISSION IS

To innovate traditional workwear in order to

- support hospitality professionals to perform in their **optimal state** across multiple working conditions, be it extreme weather or risk levels
- empower personnel to **feel their best** with more comfortable, durable, breathable, lighter workwear
- **safeguard** personnel from various injuries with more ergonomic, sporty, and protective designs
- **re-value** the identity and brand of hospitality professionals

# #1: SUSTAINABLE UNIFORM DESIGN & PRODUCTION

**Advanced 3D-Prototyping**  
 We use virtual fittings via 3D-design software, thereby **reducing sampling time and waste.**

**Traceable Recycled Fabrics**  
 from discarded plastic bottles, and recycled with mixed organic content. The recycled yarn is traceable, long-lasting, anti-bacterial, and efficient to color dye.

# #2: UNIFORM AFTER-CARE REPAIR SERVICES

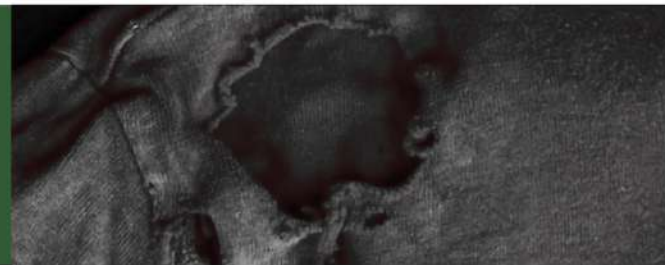

TMS.SITE understands the importance of **regular workwear maintenance**, as well as durability, comfort and other key factors, all whilst prioritising **reduction of CO2 emissions**.

Process Preview Examples:

Color Repair, Re-dye

Patching Repair - Thread, Holes, etc.

Reflective Tape, Resewing, Replacements

On Demand Repair and/or Replacement

## BENEFITS

Carbon Emission Efforts

**70%**

lower carbon emission compared to industry average

Uniform Lifecycle

**X 2**

our repairs guarantee a second life for your uniforms

Optimize your uniform's lifespan with TMS.SITE's eco solutions and superior aftercare.

# #3: UPCYCLING PROGRAM

TMS.SITE is partnering with various hospitality organisations to build upcycling initiatives whereby essential utilities are being **recreated** into more durable and functional workwear accessories and uniforms, whilst prioritising

## Upcycling of Garment Components

- 1 Reclaim functional hardware from worn uniforms
- 2 Focus on plastic components made from buttons, zips, logo patches, and buckles
- 3 Reuse these items in other uniform pieces

## Garment Repurposing

High-quality sourced fabrics used in hospitality, such as hotel linens, curtains, sofa covers, etc.

- 72% of hotel bedding ends up in landfills
- Upcycling hotel bed linens for uniform shirts

### Benefits

Reduces your company's texture landfill waste

Extend the lifespan of your raw materials

- HR
- HQ back office & sales

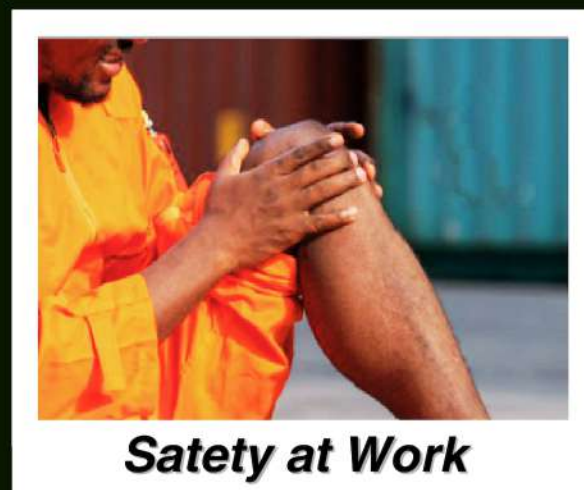

# MARKET LEADING PRODUCT FEATURES

**Ultralight Comfort**

**Sporty Performance**

**Safety at Work**

# USER FEEDBACK

**Renovation Team, JTSTB from TAIWAN**

“Extremely breathable, the knee pads provide unrestricted mobility, allowing me to kneel on the rooftop all day.”

**Arborist, Logan from USA**

“The TMS.SITE All Seasons Pro pants are hands down the most comfortable working pants I've ever worn.”

**Steel Fixer, Stone, HK**

“The Ultralight 3.0 pants are sick. The kneepads provide exceptional comfort while kneeling. No holes or rips to worry about even when working with sharp metals.”

**100% positive feedback from our global users**

Since 2018, TMS.SITE has been conducting field research across multiple industrial sites and among workers to acquire the lightest and most durable fabrication and silhouette.

# SUSTAINABILITY COMMITMENT

We partner with suppliers with high international standards of ESG and ethical manufacturing.

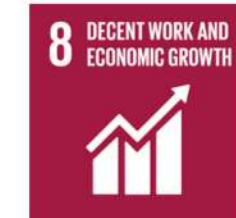

TMS.SITE's supply chain policies strictly require sustainability, fair labor practices, and responsible sourcing are prioritized by all our partners and stakeholders, aligning with TMS.SITE's ethical and eco commitments.

Our team is continually innovating and exploring new solutions to collectively craft a more sustainable and durable future of industrial workwear.

## THE GLOBAL GOALS

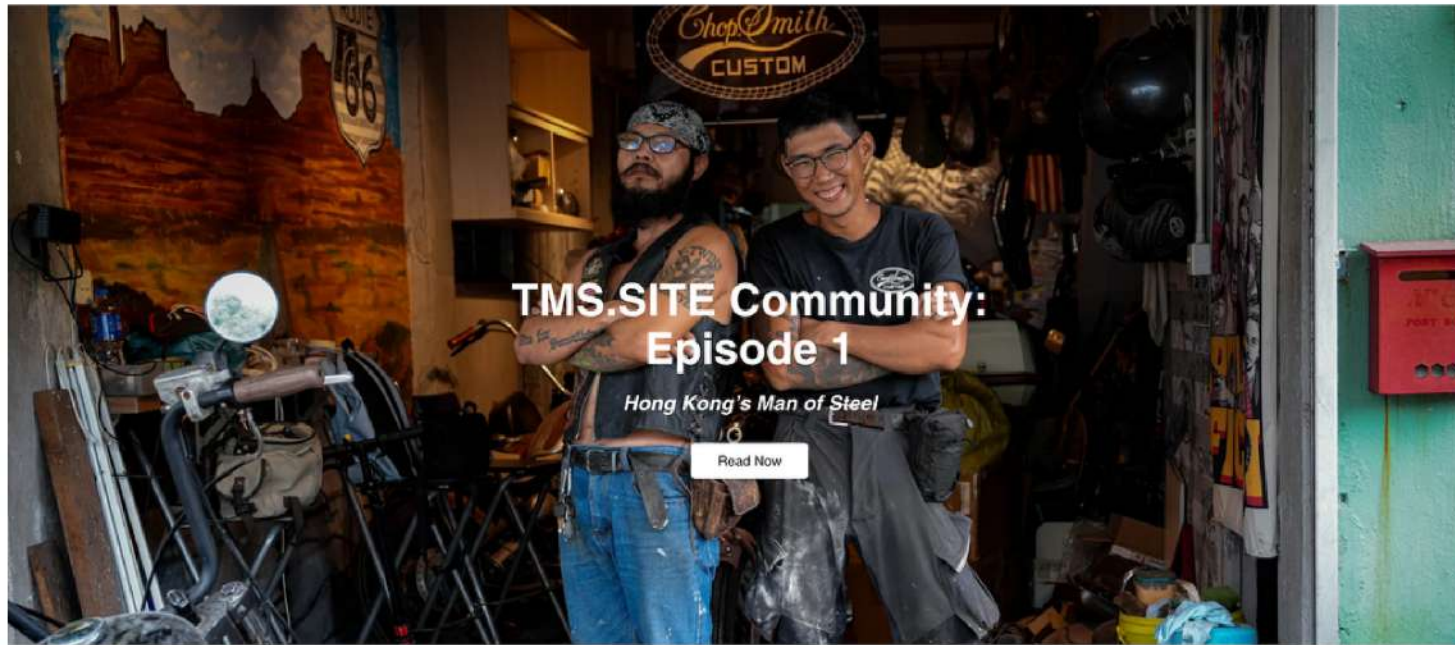

For Sustainable Development

TMS.SITE WORKWEAR

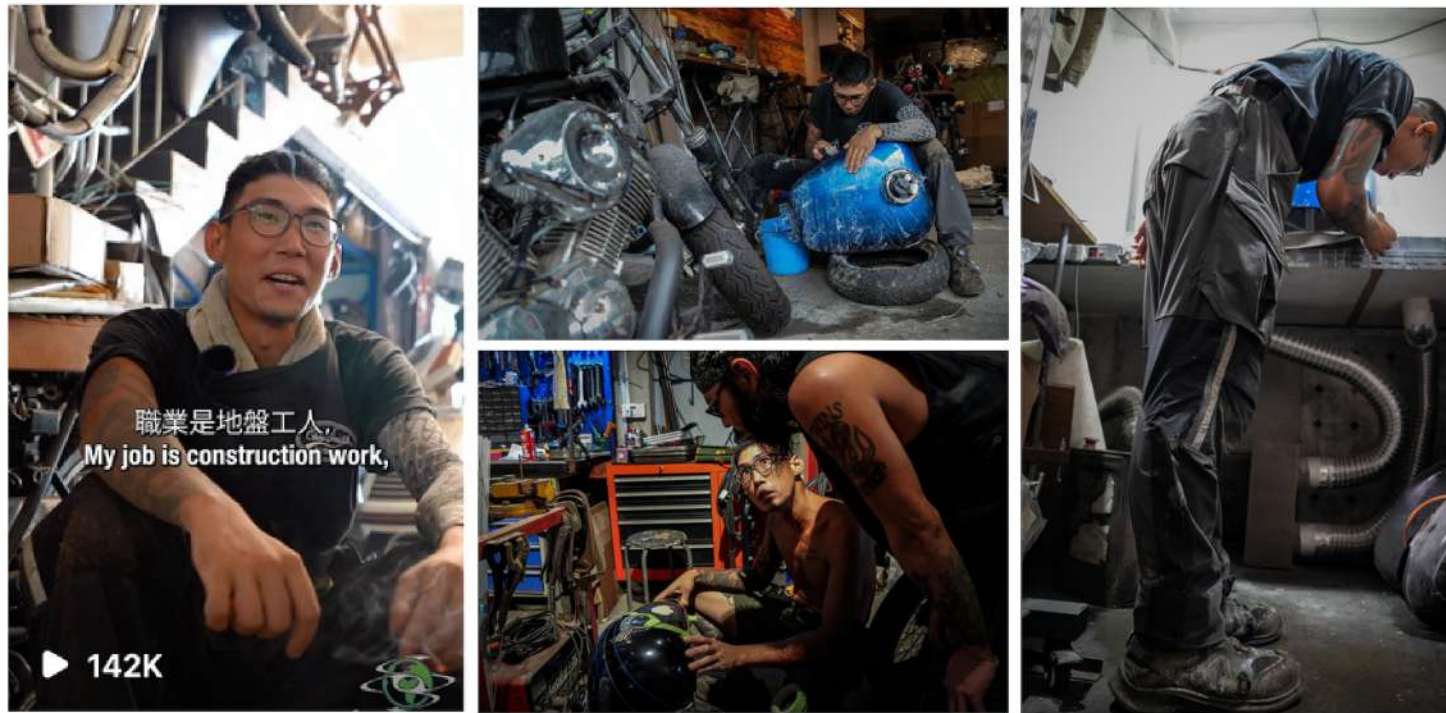

# TMS.SITE COMMUNITY

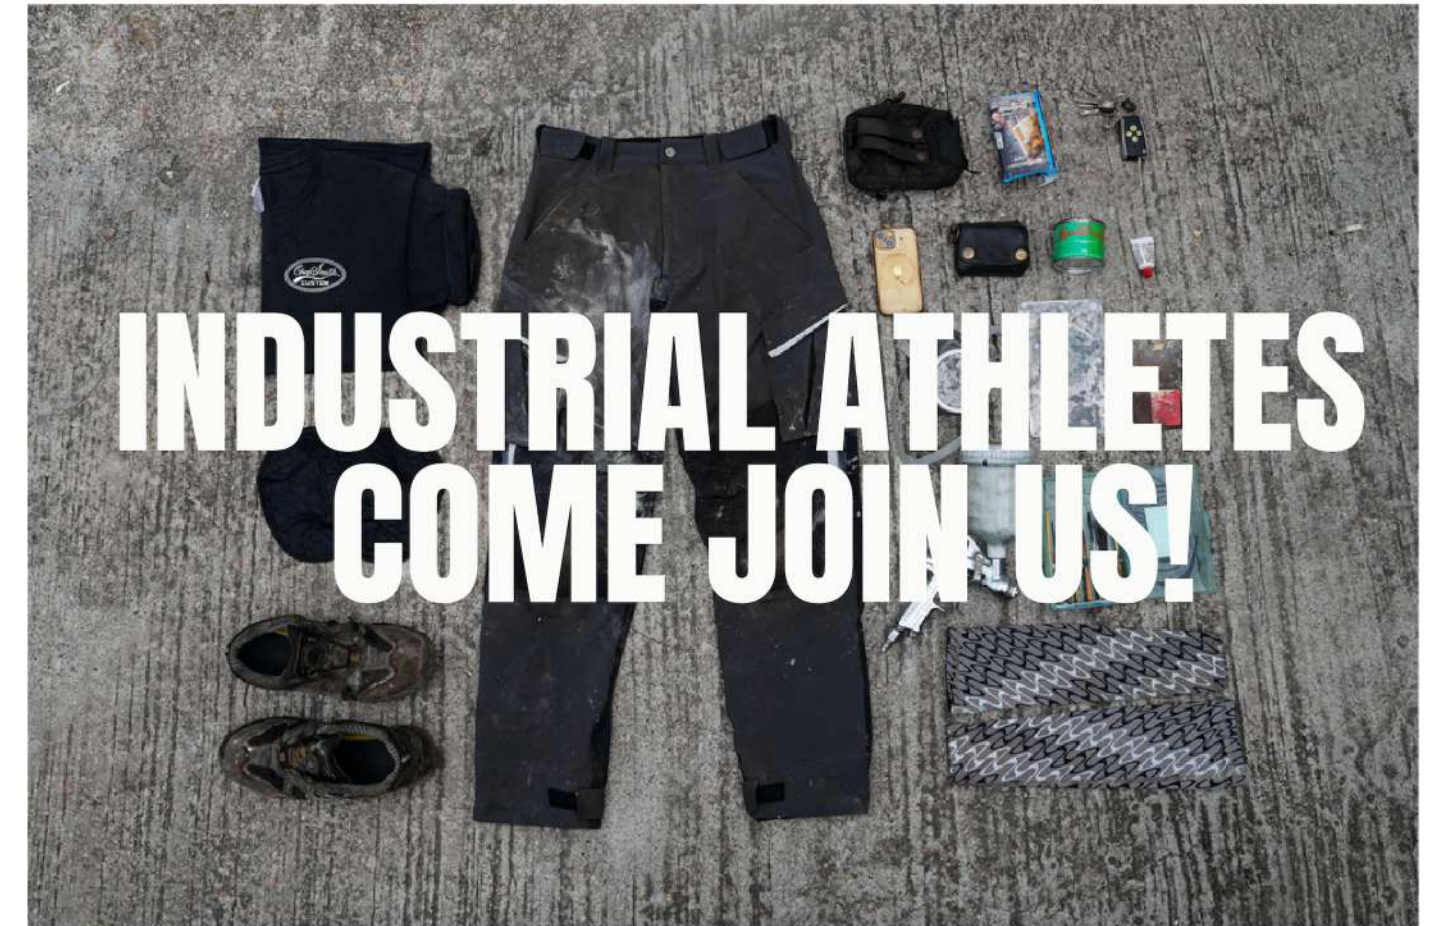

In 2023, we launched **TMS.SITE Community** to:

- **share stories** of industrial athletes from our home city of Hong Kong and around the world
- inspire **change in perceptions of the industry**
- build an **inclusive** global community of industrial professionals

We have also launched the **TMS.SITE Industrial Athletes Program**, our blue-collar professionals circle, for them to:

- become our official key product R&D testers
- get rewarded & incentivized for their trade & craft
- access TMS.SITE product discounts and exclusive samples

To apply for the Industrial Athletes Program, head over to our [community\\_page](#).
