

ASPEN

INSTRUCTIONS

The Aspen is a wrist strap release crafted for archers who prioritize precision and comfort. Equipped with both travel and length adjustments, the Aspen seamlessly adapts to your unique shooting style. Its roller sear trigger and single closed jaw guarantee a crisp, consistent release, while the rotating release head ensures smooth, reliable action. The Aspen brings a modern twist to a trusted design, delivering accuracy with every shot.

LENGTH ADJUSTMENT

SOLID CONNECTOR

To adjust the length of your Scott™ Release with a solid connector, first remove the #4-40 socket head cap screw from the side of the release head (Fig 1). Then set the release head to the desired length and reinsert the screw in the corresponding hole on the release head to tighten. **DO NOT OVER TIGHTEN, AS IT MAY STRIP THE THREADS IN THE RELEASE HEAD.**

TRIGGER SENSITIVITY ADJUSTMENT

The trigger travel adjustment set screw on your Scott™ Release is located at the base of the trigger near the trigger post (Fig 2). **TO INCREASE TRAVEL**, turn the screw clockwise. **TO DECREASE TRAVEL**, turn the screw counter clockwise. Test the release after each quarter turn increment. It is possible to adjust the set screw out too far (counter clockwise) which will make the release premature fire.

RECOMMENDATIONS OF USE

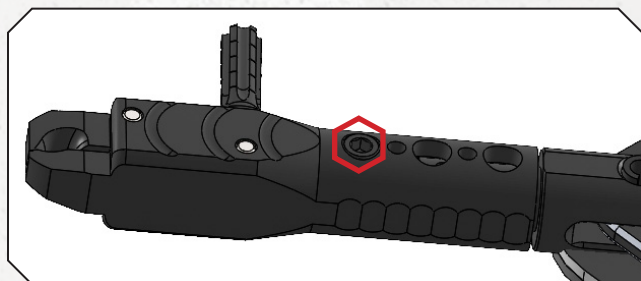

Your Scott™ Solus Release is designed for string loop use. **DO NOT USE** any Scott™ Release in combination with any metal loop device. Doing so will damage your Scott™ Release.

RECOMMENDED MAINTENANCE

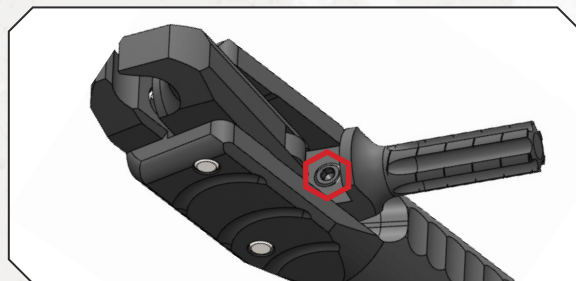

Your Scott™ release should be blown out with dry air after any use in damp environments. Once dry, it should be lightly lubricated with a light machine oil.

NEVER DRAW YOUR BOW WITHOUT AN ARROW, AND NEVER POINT YOUR BOW IN AN UNSAFE DIRECTION.

RECOMMENDATIONS OF USE: Your Scott™ Release may be used with a string loop, or directly off the bowstring in combination with an eliminator button or synthetic nocking point. **DO NOT USE ANY SCOTT™ RELEASE IN COMBINATION WITH ANY METAL LOOP DEVICE OR ALLOW THE RELEASE JAWS TO COME INTO DIRECT CONTACT WITH A METAL NOCK SET.** Doing so will damage your SCOTT™ Release.

WARRANTY SERVICES:

IMPORTANT: In the unlikely event that you require service on your product, please contact Customer Service at 1 (877) 503-5483. If necessary, our Customer Service Agents will provide you with a Return Merchandise Authorization (RMA) number and instructions on how to ship the product(s) back. It's important that you contact a Customer Service Agent before returning any item. Please be sure to include your RMA number when returning an item, so that we can identify the return as yours. Without the RMA, we will not be able to process your return, and your item will not be returned to you.
