LEDHUB

Your most reliable LED display solution partner

2024

www.ledhub.tech

ABOUT US

AV Master is a trusted brand was born to provide reliable and top-notch solutions for our clients.

As a techie, we lacked efficient and incredible solutions to assist our clients. We soon realized that from the market, many clients felt the same lack of options they could trust with their eyes closed. It felt like we had to do something to make things better. We also wanted to start a business that could be a force for good.

We decided to follow our hearts. We dug into numerous products from our industry experts. And we decided we had to provide them.
And in just over a few years, what started as an experiment with our clients has now turned into a trusty brand, available to serve its first 5,000+ customers. We sell worldwide and on several leading online platforms.

Indeed, every year along the way, we want to be better than we were before and constantly innovate to have the best products possible.

Pony Cheng

CEO OF LEDHUB TECHNOLOGY CO., LTD
