## APPLICATION TOPOLOGY

**SuperCue Series** products are professional PPT clicker for all kind of Press conferences, speeches, Corporate and others. The product is composed of remote control, receiver and cable. We developed into five versions - **Mini, Dual, Quad, Standard and Pro.**

## APPLICATION TOPOLOGY

Supercue Standard / Pro Configuration : 2 x Remote Control, 1 x Receiver, 1 x Packing box

## FEATURES

- Using 433MHz digital communication technology and arm hardware architecture
- The transmission is more stable, the transmission distance is longer, and the penetration ability is stronger
- LED stream Light for more accurate and intuitive display of page flip animation
- Adopt HD capacitive touch screen for easier operation
- Single unit can control up to 6 PC / Mac pages can be synchronously to turn pages
- By cascading multiple units, more 6 PC / Mac pages can be synchronized in page-turning
- Support synchronous control of multiple remote controllers
- Provide 9999 digital channels, more flexible matching
- Ergonomic design of remote control makes it more comfortable to hold in
- The remote control provides a timer display to clearly see the time on the page
- Adopt rechargeable high-capacity lithium batteries for easy use
- High power laser is used to make the contents clearer
- Flexible channel setting, easier matching

**SuperCue Series** products are professional PPT clicker for all kind of Press conferences, speeches, Corporate and others. The product is composed of remote control, receiver and cable. We developed into five versions - **Mini, Dual, Quad, Standard and Pro.**

- Bluetooth/2.4G
- <20M Transmission Distance
- Susceptibility to interference by Wifi and other device over the same frequency
- Tansmission delay 10-1000ms
- Laser Power 10mw
- Conventional Design
- Batteries based remotes

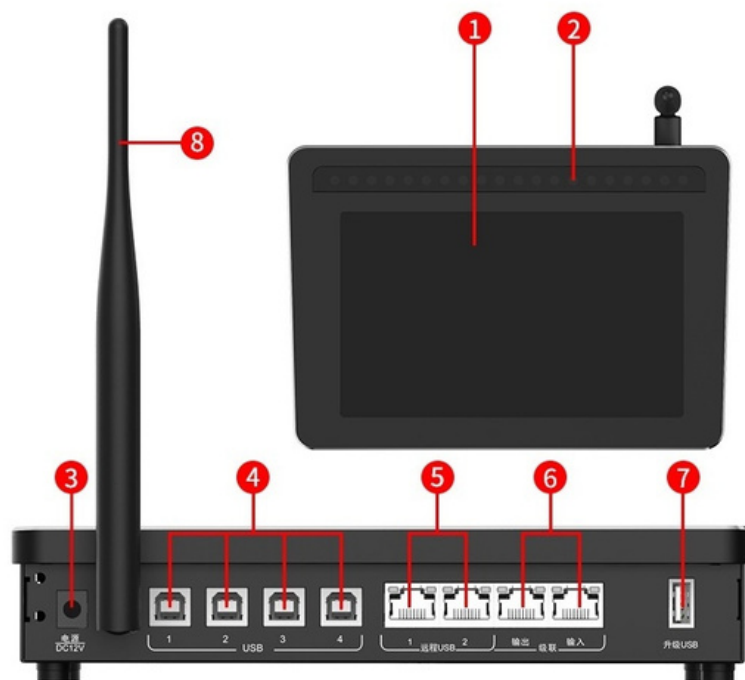

- 433MHz Digital Communication
- >100M Transmission Distance
- Unique Communication frequency band, Strong anti-jamming ability
- Tansmission delay 10-100ms
- Laser Power 30mw
- Touch Screen
- Rechargeable Remotes

**OTHERS**  
**VS**  
**SUPERCUE**

## REMOTE CONTROL

1. Laser Key : Emit a 30 MW Green laser
2. OLED Screen : Information about current channel, Power and timing
3. ON Key : Switch ON/OFF
4. Forward Button : Corresponding to PPT/ Key note "Next" Button
5. Backward Button : Corresponding to PPT/ Key note "Previous" Button
6. Antenna : 433MHz high gain antenna

1. LED Capacitive touch screen
2. Stream Indicator
3. DC Power Plug
4. USB Ports x 4
5. Remotes USB Ports x 2
6. Link interface x 2
7. Program upgrade interface
8. 433MHz high antenna

- Working mode: Master/ Slave mode can be set for cascading multiple units
- Device Management: Check the number and the power of the linked remotes
- Connection Status: View the PC/Mac connected to the receiver
- Shortcut: Open/Exit slide with single press
- Quick Preview: Quickly preview the entire PPT/Keynote content
- Jump function: Quickly jump to the PPT/Keynote to the specified pages
- Play mode: One key to set the playback mode of the PPT/Keynote
- Manual control: Can manually control PPT/ Keynote page up and down
