

External Anti Cash-Trapping Device

Benefits

- One box solution
- Fits to most ATMs
- Installation time 10-20 minutes – installation video available
- No specialist tools required
- Minimal BAU impact
- Worldwide deployment

Issue

External customer cash trapping mechanisms are a persistent global issue with various types used by criminals.

Solution

Bloc-Tab is a one-piece mechanical solution to prevent external cash trapping.* Bloc-Tab is a profiled shutter door that will prevent the ATM from presenting if a false fascia is fitted. The cash is retracted preventing theft.

Installation

All Bloc-Tab installation videos can be downloaded from www.bloc-box.com
