Python F1

## Hybrid Western Shipper Cantaloupe
(WSC-06-19)

- Bright orange flesh with high brix
- High yields
- Excellent disease tolerance

Fruit: (6-8 lbs.) Oval with medium net, bright orange flesh with high brix.

Maturity: 80-85 days.

Tolerances: Powdery Mildew Race 1 & 2, Fusarium Race 0, 1, 2, Alternaria and Downy Mildew (Central American Strain).

Features: Python F1 is a hybrid cantaloupe; the latest and most impressive of a new line of western shippers. Producing large melons with 4" of flesh between rind and cavity, this variety is destined to be a player in the California cantaloupe market. Packing 7's and 9's with high yields and excellent quality melons. Python F1 is oval; flesh is bright orange with great fiber content. Stem and blossom scar are small and the plant is vigorous providing excellent cover. For smaller size increase plant population 15%-20%.
