

Make light work of large-scale cleaning

Experience a ride-on sweeper that keeps you productive from start to finish, it is easy to operate and requires very little maintenance.

Introducing the ROS1300, a rugged, consistent performer for daily sweeping of hard floors – both indoors and outdoors.

From large warehouses and industrial areas to commercial complexes, schools, and colleges – keep dust and debris under control quickly and efficiently. Simple, intuitive controls like the one-touch start help you get to work instantly and stay in control. While smart, tool-free maintenance means your operator won't be phased by time consuming routine tasks. Built for all-round safety, this is a sweeper that maintains productivity while ensuring a safer working environment for everyone. Optimised for cleaning at scale and with the capacity to keep sweeping up slopes, the ROS1300 is truly a productive performer.

- Maintain high productivity whatever your application, with optimal dust and debris collection and powerful rear-wheel drive – even up slopes
- Enjoy one touch start that activates all main functions instantly and tool-free maintenance for easy installation and removal of the broom and brushes
- More sweeping, less dumping with high capacity 130L hopper on wheels and optional three mini containers for convenient debris dump
- Optimised for operators with cup holder, USB port, built-in device storage and water level indicator for dust control misting system
- Safety-centric design with warning beacon, front LED light, speed-reduction during turns and ergonomic adjustable seat
