

Electric and gas cooking surfaces:

This appliance complies with the eco-design requirements of Regulation (EU) No. 65/2014, which supplements Directive 2010/30/EU, in accordance with EN 60350-2, EN 15181 and EN 50564.

ENERGYSAVING TIPS

Make the most of your hot plate's residual heat by switching off cast iron hot plates 10 minutes before the end of your cooking time and glass ceramic hot plates 5 minutes before the end of cooking time.

The base of your pot or pan should cover the hot plate. If it is smaller, precious energy will be wasted and pots that boil over leave encrusted remains that can be difficult to remove.

Cook your food in closed pots or pans with well-fitting lids and use as little water as possible. Cooking with the lid off will greatly increase energy consumption. Use purely flat pots and pans.

If you are cooking something that takes a long time, it's worth using a pressure cooker, which is twice as fast and saves a third of the energy.

Product information complies with Commission Delegated Regulation (EU) No. 66/2014			
	Symbol	Value	Unit
Brand		Kaiser	
Identification of the model		KCT 3721 F	
Type of surface cooking		Electric	
Number of cooking zones and/or areas		2	
Heating technology (induction cooking zones and cooking areas, radiant cooking zones and solid plate)			
Rear left		RADIANT	
Rear centre		X	
Rear right		X	
Centre left		X	
Centre centre		X	
Centre right		X	
Front left		RADIANT
