

# Epson TM-m30II-NT Series

The TM-M30II-NT point of sale solution includes Network Tethering for an internet connection between printer and tablet, over cable.

The TM-M30II-NT mPOS solution has been developed for specialist shops, boutique outlets, small restaurants, bars, coffee shops, delis and food trucks. It features Sync and Charge for tablet device connection, to power the tablet and print data over a single cable, and Network Tethering that creates an internet connection between printer and tablet.

### Simple compact design

The TM-M30II-NT is based on a simple, compact cube design with a very small footprint. This discreet design fits seamlessly into most environments. Available in black or white.

### Enhanced connectivity

Peripherals such as scanners, keypads and scales, can connect directly with the TM-M30II-NT and pass data to tablets that would not normally support connection to peripherals. It also includes enhanced connectivity (USB and Ethernet) and Server Direct Print (SDP) and Cloud (OMS) intelligent functionality. Network Tethering also provides an internet connection between printer and tablet over cable.

### Reliability

The TM-M30II-NT offers a host of new features that are designed with transactional efficiency in mind. These include: increased print speeds (up to 250mm/s), a paper near-end sensor, enhanced mechanism, printhead and auto-cutter, and an advanced paper-saving function that includes paper back-feed capability.

### Ease of use

Epson's POS expertise has resulted in unrivalled build quality and refined functionality; each component has been developed with ease of use in mind. The TM-m30II-NT can be installed horizontally or vertically, that allows for even more positioning flexibility. It pairs easily with tablet and mobile devices and LED indicators display the status for Wi-Fi and Ethernet). Also, the flexible drop-in paper loading allows users to access the TM-m30II-NT from either the top or the front.
