

Built-in Driver Backrest

Victory Cross Country and Cross Roads

A driver's backrest that becomes part of your seat. No bars in the way of the driver's hips and legs or passenger's legs. Folds forward to ease passenger getting on or off and adds to safety by getting out of the way in sudden stops. Has up and down height adjustments, as well as driver seating position, back and forth, to help driver sit upright to avoid slouching, a big factor in driver fatigue. Included is our Quickout, that allows you to pull up on Backrest to remove.

Backrest is concaved and pivots at the top of bar as you lean against it so no uncomfortable edges dig into your back. Well padded with foam, but only 1 1/2" thick which takes up less seating room than most other driver backrests. Comes with a handy pouch and shoulder strap to enable conversion to a shoulder bag.

SIMPLE BOLT ON INSTALLS IN MINUTES !

We also have backrests available for most other motorcycle stock seats.
We strive to closely match the material and stitching on each seat.
