

Built-in Driver Backrest

A driver's backrest that becomes part of your seat. No bars in the way of the driver's hips and legs or passenger's legs. Folds forward to ease passenger getting on or off and adds to safety by getting out of the way in sudden stops. Includes up and down height adjustments, as well as driver seating position, back and forth, to help driver sit upright to avoid slouching, a big factor in driver fatigue.

Backrest is concaved and pivots at the top of bar as you lean against it so no uncomfortable edges dig into your back. Well padded with foam, but only 1 1/2" thick which takes up less seating room than most other driver backrests. Comes with a handy pouch and shoulder strap to enable conversion to a shoulder bag.

INSTALLS IN MINUTES "WITHOUT" TAKING OFF SEAT COVER !

We also have backrests available for most other motorcycle stock seats.
 We strive to closely match the material and stitching on each seat.

Available option: Upper Bar Cover; For passenger who would feel more secure with padded bar..
