

The Dog Agility Tunnel & Sandbags - 0223

Assembly Instructions

Thank you for your purchase! Our goal at Better Sporting Dogs is to bring fun, quality equipment to dog enthusiasts just like ourselves. Agility training is a fantastic way to train your dog both mentally and physically and also deepen the bond you have with your dog. The Tunnel & Sandbag Kit is a great way to begin training or keep up with the training you already have!

Please see the assembly instructions below. If at any point you need assistance in assembly or have any questions or concerns, we can be reached at: support@bettersportingdogs.com

***Please note:** While this equipment is great for use both indoors and outdoors, prolonged exposure to the elements will cause it to wear out more quickly. To ensure your equipment has the longest lifespan possible, it is recommended that you store it indoors when not in use.

Tunnel & Sand Bags Assembly:

To assemble the tunnel, first remove it from the packaging. There are Velcro straps that keep it compressed when in the bag. Untie all four Velcro straps and the tunnel will pop open and be ready to be used.

Place the sandbags over both ends of the tunnel. Place the Velcro straps at the top of the tunnel, so the weighted ends can 'hug' the bottom and keep it in place. Carefully fill the sandbags with your material of choice. Do not fill the sandbags with more than 15 lbs of weight.

When placing the tunnel back in the bag, tie the Velcro straps snugly around the tunnel so that it fits nicely in the bag.
