Product Introduction

M2 is a 15.6-inch portable dual-screen splitter with a stand, which features a novel structure and strong compatibility. The product adopts a full metal exterior material, making it more sturdy and durable. The screen has full-function TYPE-C and HDMI (MINI) interface for external expansion, with complete interfaces, strong compatibility, faster and more stable data transmission. It can quickly set up a personal mobile workstation. Transform one computer into three or two, and simultaneously view the content on three screens, increasing your productivity by 200% and enabling efficient multitasking. It can solve the problem of insufficient screens and small screens in the original device.

The M2 product adopts a dual-link shell structure, and the screen supports 0-340 folding. The screen comes with a stand, supports landscape and portrait display, and supports one-key large-screen display. The upper screen supports one-key 180-degree rotation display. Users can adjust it to the appropriate angle according to their actual needs. It is widely applicable and meets various needs. It is convenient to carry, suitable for light entertainment and office work, and is a comprehensive work and entertainment platform.

The M2 screen supports adjustment settings for brightness, sound, contrast, and other parameters, and is equipped with MINI HDMI/TYPER-C interfaces. It can perform multi-functional video expansion. As long as it is a signal+power combination TYPE-C laptop, it can achieve one-line connection display. For computers that do not support dual-screen expansion, simply connect the included HUB, install the driver, and connect it to the computer to light up the dual screens. It is convenient, quick, and compatible.
