

# RING SIZE GUIDE

Print the below image and scale 100%.  
Place a credit card on the black line to ensure the image is scaled correctly.

## MEASURING WITH A RING

Place an existing ring over each circle until the ring lines up with the black outer circle and you only see the white inside. IF YOU ARE INBETWEEN SIZES WE RECOMMEND YOU SIZE UP.

## MEASURING WITH A RULER

Cut out the ruler from the paper and cut a slit on the Red line. Wrap the ruler around your finger and pull the arrow through the slit. Make sure you can fit the ruler over your knuckle as well. Read the size that lines up with the Red line.
