INSTA.LIGHT

STEP BY STEP

BEFORE

Ready to shine

In Hollywood they call it the glass hair trend and it's been seen on the most prominent influencers:

ultra-shiny and silky hair that's so shiny you can almost see your reflection in it.

AFTER

STEP BY STEP

IN JUST
30/60 MINUTES

STEP/1 BACKBAR

Distribute **milk_shake® INSTA.LIGHT shampoo** evenly over damp hair and lather, then rinse. Repeat cleansing and rinse well.

STEP/2 BACKBAR

After cleansing, apply **milk_shake® INSTA.LOTION** to clean, damp hair. Comb the product to distribute it through the hair.

STEP/3 BACKBAR

Twist the hair with the fingers to help the product penetrate deeper into the hair, then rinse immediately.

STEP/4 CHAIR

At the workstation, apply **milk_shake® INSTA.LIGHT potion** to clean, damp hair, concentrating on lengths and ends. Comb through, do not rinse and proceed with blow-drying.

STEP/5 CHAIR

Work with the heat of a blow-dryer and brush, without pre-drying excessively, to allow the **milk_shake® INSTA.LIGHT potion** to adhere as much as possible to the hair.

STEP/6 CHAIR

Once dry, divide the hair into 4 sections with a cross-shaped separation. Apply a generous amount of **milk_shake® lifestyling thermo-protector** to each section.

STEP/7 CHAIR

Take thin strands and glide the straighteners 3-4 times over thin strands of hair, concentrating on lengths and ends.
