OUR CHALLENGE?

TO SATISFY ANY COLORING NEED WHILST MAKING HAIR APPEAR VISIBLY YOUNGER.

NO INHIBITION HAS CREATED THE FIRST COLOR THAT, AS WELL AS GUARANTEEING A BRILLIANT RESULT, ALSO HAS A REJUVENATING EFFECT ON THE HAIR.

As if illuminated from within, the hair discovers its original beauty.

NO INHIBITION

MULTI-COLOR

RICH PERMANENT COLOR CREAM

A WORK OF ART INSPIRED
BY NATURE,
DESIGNED BY SCIENCE.

From the heart of **z.one** concept™ research laboratories springs a new color that guarantees optimal results and delivers a unique regenerative power.

A treasure that propagates its extraordinary properties by delivering sublime color and radiant hair.

MULTICROME - Age defense*

NO INHIBITION MULTI-COLOR

Contains a mix of highly effective active ingredients.

MULTICROME - Age defense*

- Restructures hair
- Generates radiance, hence the color reflects light effectively
- Fixes the pigments of color for longer lasting intensity.

Thanks to this synergetic complex hair appears brighter and healthier.

NO INHIBITION MULTI-COLOR

- Guarantees perfect long-lasting color thanks to its state-of-the-art pigment content
- Hair is nourished and radiant.

Thanks to this synergy the color reflects intensely giving hair a younger look.

THE FINAL RESULT IS HAIR THAT IS VISIBLY HEALTHY,
AS IF IT WERE REJUVENATED.

RICH PERMANENT COLOR CREAM

REGENERATION - NANO LIPOBELLE

Over time the structure of hair changes. The percentage of keratin decreases, making hair appear more weak and fragile. Even the color appears faded. Thanks to the regenerating properties of nano lipobelle the hair finds its original beauty

PROPERTIES

Increased penetrative capacity thanks to the presence of highly purified soya phospholipids which stabilize the nanoparticles. Soya is a very important element that restores the hair's radiance.

This active ingredient, which contains vitamin E, produces coenzyme Q10 that tends to diminish with the passage of time.

The synergy between coenzyme Q10 and Vitamin E:

- performs a regenerating action
- performs an anti-oxidant action
- makes hair more vibrant and healthy.

HYDRATION - YLANG YLANG EXTRA ORGANIC ESSENTIAL OIL

The name Ylang Ylang is of Tagalog origin, and signifies "flower of flowers". It is a tree that grows up to 12-15 meters, which originates in Madagascar, and is evergreen or semi-evergreen. In the past it has been used to give hair shine and strength; women would soak their hair with the oil extracted from its fragrant flowers.

PROPERTIES

- nourishing action
- supplies hydration
- soothing and smoothing action.

SEA SATIN® RADIANCE

Sea Satin® is extracted from a plant, Beta Maritima (Sea Beet), which grows spontaneously along the coastal areas of the Mediterranean. It is highly resistant to water and the dense sea air.

PROPERTIES

- de-tangles, gives volume and radiance
- protects against fading caused by pollution and UV rays
- conditioning and nourishing action
- maintains the brilliance of hair color.

RICH PERMANENT COLOR CREAM

make your color iridescent

THE EMULSION CONTAINS:

- **coloring pigments** that are state of the art: carefully selected and controlled in order to maintain a stability of results over time. Long-lasting brilliant color.
- The formula of the cream is perfectly balanced: **minimal ammonia content** guarantees perfect results whilst respecting the hair.
- **Beeswax** with film-forming and soothing properties. In addition it has exceptional hydrating and softening qualities when applied to dry hair.
- The emulsion is easy to mix
- **Vitamin C** is indispensable during the application of color in order to combat the hair's fragility and to give it the elements it needs in order to be healthy and strong.

THE COMPOSITION OF THE EMULSION ENSURES
MAXIMUM PRACTICALITY IN THE MIXING AND APPLICATION PROCESSES.

MAXIMUM COVERAGE OF WHITE HAIR USING A SIMPLE METHOD
WITH IMMEDIATE RESULTS.

OXIDIZING EMULSION

These are studied specifically in order to act in synergy with **NO INHIBITION MULTICOLOR** and develop a greater expression of pigments contained in the formula.

NO INHIBITION oxidizers, developed in four versions, are creamy, perfumed and conditioning and have a delicate action on the scalp and hair, thanks to special soothing and protective substances.
